4. Powerful suction up to 150W
5. Easy to empty washable dustbin
6. Up to 40 min battery run time
7. Wall mount

Key features & message hierarchy

Hygienic dust filtration

The high-performance 5 layered dust filtration system helps keep up to 99.999% of dust and allergens¹ from releasing back into the air during cleaning. All filter parts and filters are also washable.

Jet cyclone maintains strong suction and traps dust

With 9 cyclones and 27 air inlets, optimal air flow can be maintained even if debris gets caught in one area. This multi-cyclonic air filtration is also designed to trap fine dust particles.

Total clean solution with Spinning Sweeper Tool

The Spinning Sweeper Tool helps make mopping floors less of a chore and easy on the back. With up to 80 mins of run time, the dual-action micro fibre wet mop pads are machine washable and comes included as part of the set.

Powerful suction up to 150W

The Digital Inverter Motor generates powerful suction up to 150W² to effectively capture dust and hair on multi-surfaces – even if deeply embedded in the carpet. The pulse jet is designed to powerfully remove fine dust inside the dust bin.

DISCLAIMERS

1. Tested based on IEC62885-2, Cl. 5.11, Max mode. Based on SLG(Schubert Leiter Geratesicherheit) tests.
2. Suction tested based on IEC62885-2 Cl. 5.8, at the inlet of the non-motorised tool, using the Max mode. Based on internal tests.

Additional Features

**Easy clean dustbin**

Cleaning your dustbin is quick and easy. Easily detach and empty your dustbin, plus it is fully washable. Even better, purchase the separate auto Clean Station™ which will empty the dustbin for you, trapping dust into a separate bag to help prevent dust emission back into the air.

**Digital Display**

Check the status of your vacuum at a glance with an LED display on the handle to check power level, brush type and error alerts.

**Additional Accessories – optimise cleaning for any surface**

Standard Accessories included:

1. Turbo Action Brush with 180° swivel head, for both carpet and hard floors
2. Mini motorised tool is designed for dust and hair on couches and mattresses.
3. Extension crevice tool is great for reaching into narrow crevices
4. Combination tool is designed for dusting upholstery and keyboards.

**Battery run time up to 40 mins**

Keep cleaning with a powerful 21.6V lithium-ion battery that delivers up to 40 minutes³ of continuous suction. Or double your cleaning time without recharging. Simply replace with a spare⁴ battery and extend your cleaning time to 80 minutes.

**Easy to use and store**

At just 2.6kg, this Jet Stick is so easy to use. Then store away on the wall mount provided so it's charged and ready to use whenever you need it.

**Additional accessories available to purchase⁴**

1. Soft Action Brush for a professional hard floor clean using woven anti-static thread.
2. The Clean Station™ empties the dustbin for you, trapping it into a separate bag to help prevent dust emission back into the air.
3. Clean Station™ refill bags

DISCLAIMERS

3. Stated run time applies to the minimum power level with a non-motorised tool attached.
4. Spare batteries and additional accessories sold separately online at samsung.com/au
