- ✓ 6 Motion Wash Technology
- ✓ Smart THINQ™ with Wi-Fi
- ✓ 13kg Capacity
- ✓ 1000rpm
- ✓ Add Item
- ✓ 12 Wash Programs with 9 Options

Turbo Clean®

Turbo Clean® uses a short burst of water spray from a nozzle located at the front of the drum during the rinse cycle to help deliver quicker wash times. By reducing the number of rinse cycles overall washing time can be reduced.¹

Inverter Direct Drive Motor

The direct drive motor with inverter control is an advanced motor system to a traditional belt and pulley design. It delivers a reliable, quiet and durable mechanism with less moving parts - that's why you get a 10 Year Parts Warranty on the LG Inverter Direct Drive Motor.²

6 Motion Wash Technology

LG washers use a combination of 6 motions, based on hand-washing, to wash your clothes. Simply choose a cycle and your machine selects the best combination of washing motions to give you an outstanding wash, whilst also caring for your clothes.

Smart THINQ™ (Wi-Fi)

With a smartphone and the LG Smart THINQ™ app the washing machine can "talk for itself" to find a solution to help save time and money on unnecessary call outs.³ Once connected to your home Wi-Fi, you can remote set and start your washer and even view usage history. When you washing is complete, you will be notified on your Smartphone.³

¹ Turbo Clean® available on selected wash programs. Time and water saving will vary depending on model, wash load and cycle selected.

² 2 Years parts and labour + 8 years on Inverter Direct Drive Motor (parts only)

³ Compatible smartphone required, Android 4.1.2 (JellyBean) or later or iOS8 or later required for LG Smart THINQ™ app and Audible Smart Diagnosis feature. Mobile 3G/4G or Wi-Fi connection, LG Smart THINQ™ app is required for Remote Start, Usage History & Notifications.
