MADE FOR MODERN FAMILIES

Westinghouse has been a household name for generations. And while we've been helping Australian families for years, times have changed. And we've changed with them...

Life is so much busier than it used to be, filled with work, extra curricular activities, not to mention just raising a family! We know it's not always easy, which is why all Westinghouse products are designed to make your life a little simpler.

Although we can't solve everything (sorry!), we can help keep your kitchen in control and looking great. So whether it's the auto reheat microwaves for busy mid-week meal dilemmas, or dishwashers that get the perfect wash, no matter how you stack; you can always be sure it's been Made for Modern Families.

Winner of the 2012 Reader's Digest Trusted Brand for Whitegoods.

BOSS®. THE BIG OVEN SYSTEM

Introducing the bigger, more efficient oven system – the Westinghouse BOSS® oven. With larger usable capacity and a European 'A' Class energy efficiency rating¹, the BOSS® oven platform is perfect for families and entertaining.

BOSS® FEATURE	MEANING...	BENEFIT TO YOU
Gross oven capacity is 80L	Larger oven capacity*	More room for cooking large meals for your family or when entertaining
A-Class Energy Efficiency based on European standard ¹	Energy efficient	More efficient cooking – saving you time and money
Optimised oven cavity design	Excellent cooking performance through better, more even air circulation for optimal heat distribution	There are no hot or cold spots in the oven so food is cooked evenly on each shelf
Reduced air and noise emissions	Less hot air is expelled by the cooling fan Fans and air ducts are optimised for low noise, whether the oven door is open or closed	Your kitchen is a more pleasant place for you and your family because the oven expels less heat and is very quiet when operating
Improved cleaning	Pyrolytic function Catalytic Liners Easy, twist & release grill elements Rounded oven cavity Flat glass-back doors Fingerprint-resistant stainless steel	Easily clean the entire oven. Turns grime and grease into ash. Simply wipe clean when cool. No need for chemicals Specially coated liners on the sides and rear of the oven absorb and vaporise cooking residues Easily swing the grill element out of the way to clean the roof of the oven No corners to trap grime makes wiping down oven walls easy No seals or ridges to trap grime and grease to make cleaning quick and simple Keep your oven looking like new
Improved safety	Integrated grill shield in oven roof	Protects hands from the hot elements when reaching for grill
Fast heat-up time	Heats to +200°C in under 10 minutes <small>(multi-function 8 and multi-function 10 models only)</small>	Less time waiting for the oven to heat up means you spend less time cooking and more time with your family and guests

¹to European standard EN50304.

*Most 600 x 600mm ovens have less usable interior space.

SEPARATE GRILL OR BUILT-IN GRILL OPTIONS

Grilling is a convenient, quick and healthy way to cook your favourite dishes – perfect for the modern Australian family. It uses less fat than frying and allows excess oil and fat to drain away while cooking.

Ovens today come in two different grill configurations:

- Grill-in-oven: where the grilling element is mounted on the ceiling of the oven and grilling is done within the oven cavity
- Separate grill: is a separate compartment to the main oven with its own grilling element

Each has a unique offering to suit your needs. Grill-in-oven models are the perfect solution for space-restricted kitchens, or for those who don't use the grill as often.

A separate grill offers greater flexibility because you can use the grill and oven at the same time, which is great for entertaining. And because they're separate, odours don't transfer between different foods – so there's no more tasting last night's grilled snapper in this afternoon's baked sponge cake.

A separate grill is also much easier to clean. You don't have any fats or residue from grilling spattered all through the oven – it's contained within the separate compartment.

The options don't stop there. Choose from separate grill wall ovens mounted at eye-level so it's easy to keep a watch on your favourite dishes or separate grill underbench models that neatly fit beneath the bench top.

OVEN TYPE	APPLICATION	MODELS
Double wall oven	More cooking space with either another full-size or half-size oven	PDR794, PDR790
Separate grill wall oven	Prefer a wall mounted oven for easier access; better ergonomics Want a full-size oven with a handy separate grill	PXR698, PXR688, GXR650
Separate grill underbench oven	Requires underbench installation to leave more space for working in the kitchen Want a full size oven with a handy separate grill	PGR659, PGR657, GGR475
Grill-in-oven	Don't grill very often	POR883, POR783, PORS668, POR668, PORS663, POR663, POR881, PPR776, GOR476, GOR474, WFE916, WFE946, WFE914, WFE912, WVE916

It's amazing how versatile cooking can be with Westinghouse!

60CM BUILT-IN OVENS

Cooking for the entire family can be stressful at the best of times. That is why Westinghouse has developed an even wider range of superior cooking solutions designed to ensure meal time runs as smoothly as possible. The range includes 60cm ovens with a spacious 80litre gross capacity. All of which ensure when it comes to cooking for the entire family, it's easy, from start to finish.

LARGE CAPACITY OVENS

Boasting European A-class energy efficiency*, the largest of our built-in oven range will deliver a huge 160L of total gross capacity in the double oven, followed by a surprising 126L in the duo range and a generous 80L in the standard models.

*to European standard EN50304.

PYROLYTIC CLEANING

Up to two pyrolytic functions turn different levels of grease and grime into ash, which then can be simply wiped away. There is no need for harsh chemicals. (POR881W/S and POR883W/S only)

MULTI-LAYER GLAZED OVEN DOOR

Cooler and safer exterior oven door temperatures are an obvious outcome of multi-layer glazed doors. The full-width inner glass door means a better oven seal and better temperature control, as well as easier cleaning.

(Selected models only – refer to features tables)

TOUCH ON GLASS CONTROLS

Completely flat touch controls, wipe clean quickly and easily. No buttons, no fuss.

(Selected models only)

CATALYTIC LINERS

Handy self-cleaning catalytic liners are fitted on selected models to absorb the fat given off during the cooking process. The fats are then vaporised by the heat of the oven, making cleaning a breeze. These can also be purchased as an optional extra.

(Refer to features tables)

SIDE OPENING DOORS

Side opening doors allow you to get closer to the oven and minimise reaching.

(Selected models only)

COOKING WITH GAS

Using gas, your food won't dry out as much. Westinghouse gas ovens vent to the front, so no flue is required and feature electronic gas ignition and flame monitoring system for improved safety and ease of use.

ANTI-SPATTER GRILL INSERTS

The safe and convenient way to grill – the anti-spatter grill insert enables cooking fats to drain into the grill dish below, which reduces the risk of fires and allows for healthier cooking.

EASY CLEANING

Easy to maintain fingerprint resistant stainless steel, removable knobs, rounded oven cavity corners, drop down grill, acid-resistant enamel and flat-back glass doors all add up to easier cleaning.

(†Multi-function grill-in-oven models)

QUIET AND COOL

The Westinghouse BOSS® range of ovens have been designed to be ultra quiet and emit less external heat for a more comfortable kitchen environment.

[#] For GXR650, GOR476, GOR474 and GGR475 models, it must be specified at time of purchase if LP gas is required as these models can not be converted. Gas rating for LP models is 9.0MJ/h.

NOTE: These gas products are only suitable for use on normal 240V AC mains supply. The use of inverters, UPS or generators must be checked to ensure the waveform is a pure sinusoidal output to confirm it is compatible with the electronics within this product. Connection to any power supply that does not meet the above requirements may result in failure of the product to operate and/or permanent damage to electronics within the product and may void the product warranty. No flue is required for Westinghouse gas ovens.

90CM COOKING RANGE

Preparing large family feasts and entertaining friends has just become a whole lot easier thanks to the new 90cm cooking range from Westinghouse.

With its huge 125L gross capacity and super-quick heat up time, you'll enjoy perfect results no matter what you cook. Beautifully designed and made right here in Australia, this large, easy-clean range of ovens is set to become the new family favourite.

DESIGNED AND MADE IN AUSTRALIA

Proudly created for Australians by Australians, you can trust the new Westinghouse 90cm range to cook all your favourite meals just the way you like them.

FULL-TOUCH ELECTRONIC CONTROL PANEL

Simple to operate and beautifully designed, the full touch electronic control panel is easy to clean and also features a fully programmable timer.

(selected models WVE916SA, WFE916SA and WFE946SA)

LARGE OVEN CAPACITY

With a spacious 125L gross capacity*, you can cook large meals with minimum fuss and maximum results. Our ovens have been tested to evenly bake up to 72 mini cupcakes in one go, so they're perfect for those last-minute school fundraisers!

EASY-CLEAN OVEN

Enjoy easy cleaning with one seamless fully sealed oven cavity. With no awkward joints, nooks or crannies to trap grease, a simple wipe is all you need to keep your oven clean.

TWIN FAN SYSTEM FOR EVEN COOKING

Cook each dish to perfection with the Twin Fan System. Fans rotate in opposite directions, distributing heat evenly throughout the oven, so you enjoy great results every time.

HANDY STORAGE COMPARTMENT

Extra storage always comes in handy, so with a clever storage compartment offered in our freestanding models, you can easily stow away any extra pots and pans.

(excludes model WFE912SA and WVE916SA)

FAST HEAT-UP TIME

Every moment counts at meal times, so while your oven heats up fast you can save time and get on with cooking the dishes you and your family love.

FINGERPRINT RESISTANT STAINLESS STEEL

Little hands or sticky fingers won't be a problem with easy-clean fingerprint-resistant stainless steel.

COOL TOUCH DOOR

For added safety and confidence in the kitchen, our cool touch door is beautifully designed with a large window, so you can keep a close eye on your cooking.

EASY TO USE HOB

Designed for maximum ease of use, our gas hobs have either a 5 or 6 burner configuration including a triple ring wok. The flat design trivets make it easy to slide pots from one burner to another. The full glass ceramic hob with touch controls, is easy to use and clean.

(excludes WVE916SA model)

* Based on International Standard IEC 60350-1

GAS COOKTOPS

Westinghouse gas cooktops offer up to four burner types ranging from small to large, including an offset triple ring wok burner. Our gas cooktops use advanced technology to suit a hardworking, productive kitchen including electronic ignition, flame failure, removable control knobs and cast iron trivets*.

INDUCTION COOKTOP

The new Westinghouse induction cooktops provide the most modern, precise and safest way to cook.

Induction cooking works by creating heat directly in the bottom of the pan, leaving the cooking surface relatively free of heat. So the only thing hot in the kitchen is the pan.

This makes the kitchen a much safer place for children, because if there's no pan on the cooking surface, then no heat is being generated from the hotplate. It also means the cooktop cannot be accidentally left on. It makes cleaning easier too, as spilt cooking food cannot be burnt onto the cooktop.

Induction cooking is not only the most energy saving way to cook, it gives you precise cooking at exact temperatures in an instant, for perfect heat control.

CERAMIC COOKTOPS

Westinghouse electric ceramic cooktops have a durable ceramic glass finish that is easy to clean and maintain. With up to six multi-heat zones, hot surface indicators and temperature limiters, the ceramic cooktop models provide straightforward solutions for a variety of cooking demands*.

ELECTRIC COOKTOPS

Westinghouse electric cooktops with solid elements are designed for hardworking kitchens. They have corrosion-resistant surfaces to minimise wear and tear and deliver the desired heat for the life of your cooktop*.

*features vary by model

FLAME FAILURE SAFETY

If for any reason the flame on the cooktop is extinguished, this added safety feature (on selected models) will shut off the gas supply.

ONE-PIECE BURNERS

Cleaning is made easy with the new one-piece burners which lift straight off for easier and more efficient cleaning – no need for tricky re-assembly. (Excluding wok burner)

EASY CLEAN CERAMIC SURFACE

Not only aesthetically pleasing, the durable glass surface is easy to clean and maintain ensuring your kitchen is always looking its best.

TOUCH CONTROLS

Easy to use touch controls provide a seamless surface that is harmonious with the benchtop and includes a button lock so that controls cannot be accidentally started.

CANOPY RANGEHOODS

Westinghouse canopy rangehoods provide a stunning visual statement and capture the grease, steam and heat build-up when cooking, drawing smells and residue away from your cooktop. The high performance canopy rangehood brings your kitchen appliances together whilst clearing the air with minimal noise.

FIXED RANGEHOODS

Westinghouse fixed rangehoods bring everyday practicality to your cooking. Eliminating steam, grease and unsavoury smells, they are also very practical to install, with just four screws. You can fix your rangehood to a wall or beneath the cupboard above your cooktop. The sleek, modern lines will suit almost any style of kitchen.

SLIDE-OUT AND INTEGRATED RANGEHOODS

Westinghouse slide-out rangehoods are designed to discreetly and conveniently slide away when not in use. Suitable for ducting or recirculating, they remove residue and smells from your cooking, ensuring a well-ventilated kitchen. An integrated rangehood works the same way, with the advantage of being able to design your kitchen cabinetry to house it – effectively hiding it from view and allowing greater flexibility for unique kitchen installations, where a clean, integrated look is required.

INSTALLATION

You can never be too careful when it comes to installation. When installing your rangehood there are two ways to direct the airflow. If you are able to move the air outside, through a flue or chimney, a ducted system is ideal (see www.westinghouse.com.au or phone 1300 363 640 for more information on ducting kit accessories). If clear exterior access is not an option, you simply install your rangehood to recirculate* (carbon filter required).

* Some models can only be recirculated through the cupboard.

SUPERIOR AIR MOVEMENT

The powerful 3 speed fan efficiently removes fumes, smoke and vapour from the kitchen.

LIGHT UP YOUR COOKING

Two 20W Halogen lights enhance the cooking space adding ambience to the kitchen.

QUIET OPERATION

Superior air flow without the noise. Designed to operate at low noise levels even on the high fan setting. Maximum noise level of 56dB(A)[†] when on high fan setting.
[†] WRG970CS, WRF900CS & WRF600CS

TIMED CLEANING

When the cooking's finished, this Auto-Off[°] fan delay will ensure that all kitchen odours and residual smoke are removed, automatically switching itself off after 5 minutes so meals can be enjoyed straight away.
[°] WRG980CGS & WRG970CS

FRESH AIR FOR CLEAN COOKING

The Westinghouse Rangehood is designed for easy maintenance with stainless steel covered filters[^] to make cleaning easier.
[^] WRG980CGS & WRG970CS

EASY TO CLEAN

Removable filters are dishwasher safe for efficient cleaning and the stainless steel hood is easy to maintain – simply wipe clean.

MICROWAVE OVENS

According to the *Westinghouse How Australia Cooks Report*, the microwave oven is Australia's most popular cooking appliance, found in 95% of kitchens. Of those households, 83% of cooks use their microwave on any given day†.

Surprisingly, one in four people are not satisfied with their microwave and one of the main reasons is because it doesn't complement other kitchen appliances as well as the overall kitchen decor.

Recognising this frustration and making a distinct move away from the 'white box on the benchtop', Westinghouse has launched a new range of countertop and built-in microwaves designed to complement modern kitchens. With either white or fingerprint resistant stainless steel finishes and electronic touch controls, the stylish appliances integrate easily into the kitchen, creating a visually harmonised space.

SEAMLESS DESIGN INTEGRATION

The design perfectly integrates with the entire Westinghouse kitchen collection, allowing you to perfectly co-ordinate your kitchen design.

ADD CRISPNESS TO YOUR DISHES

Grill function* used in isolation, or combined with microwave power allows you to cook a wider range of dishes and add a crisper result where needed.

*Selected models

HARDWEARING, STYLISH AND EASY TO CLEAN

Full fingerprint resistant stainless steel metal fascia on the microwave and trim panel*, provides a hard wearing yet attractive look to your kitchen.

*Selected models

TRUE BUILT-IN SOLUTION

Venting to the front of the microwave eliminates the need to duct the heated air out of your cabinetry offering a true built-in solution.

PREPARE DISHES QUICKLY & EASILY

With 8 Auto menus including Auto Reheat, Vegetables, Pasta, Meat, Pizza, Potato, Fish and Soup you'll have your next meal prepared in no time!

VERSATILE FEATURES

Multi-stage cooking from frozen to cooked, quick start, delayed start cooking and time and weight defrost options.

†Source: *Westinghouse How Australia Cooks Report*. This report has been produced by Westinghouse, a leading kitchen appliance manufacturer. The research was conducted nationally by Bread & Butter Research, among 1,000 Australians aged 25-64 years in October 2008.

FAMILY SIZE DISHWASHERS

Now you can receive a superb in-house washing up service at the press of a button rather than the pull of an ear. Westinghouse's new dishwashers each come with a 4.5 star water rating, which means they only consume 11.4 litres of water per load. Match that with equally impressive washing and drying results and you can take a load off knowing your dishes are in the best of hands.

XXL TUB

We've developed our wash performance to handle real life stacking. And the extra 10 litres of loadable volume* makes room for plates up to 34cm tall, giving you the extra flexibility for throwing it all in.

*Compared to standard machines of the same size.

AUTO OFF

Our auto off function eliminates any energy consumption 10 minutes after your dishwashing cycle has completed. So you can be reassured we're keeping your energy consumption as efficient as possible.

WATER & ENERGY EFFICIENT

With 4.5 star WELS* water rating and 3 star energy rating our latest range of dishwashers deliver optimum washing and drying results.

FLEXIBLE INSTALLATION

Enjoy greater freedom with our new freestanding range. Position as either freestanding or fit into a cavity without being secured. (WSF6602WR/WSF6602XR). The new built-under model can be installed behind your cabinetry kick-panelling giving your kitchen a streamlined stylish look. (WSU6603XR).

30 MINUTE QUICK WASH CYCLE

With 5 wash programs there's an option to suit your requirements, giving you more flexibility to choose what, when and how you wash. Now includes the Fast 30 program, to help with your busy lifestyle.

ACTIVE DRYING

Active drying optimises drying performance while the interior light offers better visibility when loading and unloading your dishwasher.

(Internal light for WSU6603XR only).

SENSOR WASH & LOAD SENSING

Sensor wash assesses the load size and level of dirt on the dishes and adjusts the wash cycle to optimise wash results. (WSU6603XR). The load sensing feature quickly senses the load size optimising the use of water (WSF6602/WR).

QUIET OPERATION

Enjoy peace and quiet in your home with noise levels as low as 48dB(A).

(Excludes WSF6602XR/WR).

WATER SAFETY SYSTEM

Our aqua control function is an advanced anti-flood system. Automatically cutting off the water supply to the dishwasher to give you peace of mind knowing your kitchen is protected.

(WSU6603XR only).

TOP SERVICE

We can deliver, install and remove your old dishwasher, as well as offer home service and spare parts.

Conditions apply.

ELECTRIC OVENS

	POR881	POR883	POR863	PORS863	POR867	POR868	PORS868	POR783	PGR857	PGR859	PXR888	PXR898	PDR790	PDR794	WVE916	PPF776	WFE914	WFE916	WFE946	WFE912
main oven																				
 pyrolytic cleaning Heats to high temperature and burns off splatters, accumulated dirt and grease from the oven liner. Simply wipe out ash when cooled.	✓	✓																		
 conventional bake (bake/pizza) Heats from the top and bottom elements. Thermostat controlled, to maintain a constant temperature. Ideal for single trays eg. biscuits, scones, cakes, casseroles, roasts.	✓	✓			✓	✓	✓	✓	✓			✓	✓	✓	✓		✓	✓	✓	✓
 fan bake Heats from elements surrounding the fan, circulating heat around the oven. Cooks at a lower temperature – faster than baking. Ideal for multi-shelf cooking and reheating.	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓
 grill – electric Uses a powerful upper element to grill the top of food such as tender meats, fish, cheese toasties and other quick cooking food. Preheat the grill for 3 minutes for best results.	✓	✓	✓	✓		✓	✓	✓					✓	✓	✓	✓	✓	✓	✓	✓
 maxi grill – electric Grill element and top element works like a normal grill but uses both the grill element and the boost element, so that more can be grilled.	✓	✓			✓	✓	✓	✓					✓	✓	✓	✓	✓	✓	✓	✓
 defrost Uses the fan only to circulate the air in oven to accelerate defrosting of food.	✓	✓			✓	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓		✓	✓	✓	✓
 rapid heat/ fast heat Uses a combination of elements to get the oven to the required temperature faster. Can also be used for drying herbs, craft items, etc.	✓	✓			✓	✓	✓		✓			✓	✓	✓	✓		✓	✓	✓	✓
 base heat Uses the bottom element only. Excellent for where a crisp base is required.		✓				✓	✓	✓		✓		✓	✓	✓	✓		✓	✓	✓	✓
 fan assist Both top and bottom elements (PON783S) or bottom element (DSK965/963) are used while a fan circulates air within the cavity.	✓	✓						✓							✓			✓	✓	
 pizza This function uses the bottom element and the element around the fan.		✓						✓							✓			✓	✓	
 fan grill The grill element and the fan are used in combination. Excellent for thicker cuts of meat, or to get a rotisserie style result.	✓	✓	✓	✓	✓	✓	✓	✓					✓	✓	✓	✓	✓	✓	✓	✓
 fast heat up Preheat oven 30% quicker than on standard "Bake/Pizza".															✓			✓	✓

GAS OVENS

GOR474	GOR476	GXR650	GGR475
--------	--------	--------	--------

main oven

conventional bake

A powerful burner underneath the oven heats the oven, in a traditional baking fashion. Gas cooking provides a moister cooking environment than electric.

✓	✓	✓	✓
---	---	---	---

fan bake

Together with the oven burner, a fan circulates the hot air around the oven. Perfect for multi-shelf cooking.

✓	✓	✓	✓
---	---	---	---

grill

Uses a powerful upper electric element to grill the top of food such as tender meats, fish, cheese toasties and other quick cooking food. Preheat the grill for 3 minutes for best results.

✓	✓		
---	---	--	--

fan grill

The grill element and the fan are used in combination. Excellent for thicker cuts of meat, or to get a rotisserie style result.

	✓		
--	---	--	--

defrost

Uses the fan only to circulate the air in the oven to accelerate defrosting of the food.

	✓	✓	✓
--	---	---	---

separate grill

grill – electric

Uses an electric element at the top of the separate grill to grill the top of food such as tender meats, fish, cheese toasties and other quick cooking food. Pre-heat the grill for 3 minutes for best results.

ACCESSORIES

CAST BAKING DISH

Take advantage of the size of your oven with this huge baking dish specifically designed for you to make the most of your new Westinghouse oven. The cast baking dish features a non-stick coating so that you spend less time cleaning.

Model number: ABD610

BAKING TRAY

A full-width, enamelled baking tray is available. Designed to give you the widest possible baking surface, the baking tray is available for all new Westinghouse BOSS® ovens.

Model numbers: ABT600 Non-perforated Baking Tray

SELF CLEANING CATALYTIC LINERS

Catalytic liners are self cleaning panels that fit into the oven enabling you to spend less time cleaning and more time enjoying yourself. These panels have been designed specifically for your oven.

(POR668, PORS668, PDR790, PDR794 and POR783 come standard with catalytic liners).

Gas Ovens: CKGFL3 Rear & side liners.

Catalytic Liner Kit	Description	Models Compatible with the Catalytic Liner Kit
ACC041	side and rear liners	PGR657, PGR659, POR663, POR667, POR668, PORS663, PORS668, PPR776, PXR688, PXR698, DSP635, PSP632
ACC042	side liners	PGR657, PGR659, POR663, POR667, POR668, PORS663, PORS668, PPR776, PXR688, PXR698, GGR475, GOR474, GOR476, GXR650, DSP635, PSP632, GSP625, GSP627
ACC043	side and rear liners	GGR475, GOR474, GOR476, GXR650, GSP625, GSP627
ACC044	side liners	PDR790, PDR794, POR783
CKETL2	top liner	PDR790, PDR794, PGR659, PXR698, POR667, POR668, POR783, PORS668

FAN FILTER

The stainless steel, dishwasher-cleanable fan filter stops cooking residues from being unnecessarily spread around the oven.

Model number: CKDFF1

PIZZA STONE KIT

Cook pizza like a pro with this pizza stone kit.

Model number: PSK1

GRIDDLE PLATE

The griddle plate features a ribbed base, high sides, a pour spout and is coated in an easy clean non-stick surface. It can be placed across two gas burners or electric elements to provide BBQ-style cooking and endless versatility.

Model number: GRIDDLE

RANGEHOOD CARBON FILTERS

Remove excess cooking smells from the kitchen with an additional carbon filter. Placed below the fan, carbon filters are ideally used when the main unit is in recirculating mode.

Model numbers: ARCFD (for fixed and slide-out models), AR500CF (for canopy models), AR600CF (suits WRG970CS)
