Preface

To customers:

Thank you for buying this component player! We suggest that you should read the manual before connecting the system to a power supply so as to guarantee the best features of the product and your video and audio enjoyment.

Please keep the manual and packaging carefully for later reference..

If there is problem during using the system,please contact our customer service department.

Accessories

Please check that the following accessories are enclosed in the package.

1.Remote controller

2.AV cable

3.User's manual

4.AM antenna

5.FM antenna

6.Speaker cables

7. iPod bracket

- ◆ The specification in the manual is according to the samples, just for your reference.
- ◆ If the specification design changed, no further notice.

Main features

- Compatible with DVD/CD/MP3/WMA/CD-R/CD-RW/MPEG4/USB/SD/iPod
- Picture CD readable,digital album browse playing function
- Multi-caption,angle screen picture selection function
- High sensitivity digital FM/AM radio
- Build-in AC-3 & HDCD decoder
- Intelligent upgrade, age lock and automatic screen protection function
- Digital beam, coaxial and mix-audio(left/right) output
- Stereo earphone output
- 2.0 track power output (2*10W RMS)

Before attempting to connect,operate or adjust this product,please read the instructions completely.Please save this manual.

Safety affairs/remote control /discs

Safety Precautions

WARNING: TO REDUCE THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE COVER (OR BACK). NO USER-SERVICEABLE PARTS INSIDE. REFER SERVICING TO QUALIFIED SERVICE PERSONNEL.

The lightning flash with an arrowhead symbol, within the equilateral triangle, is intended to alert the user to the presence of un-insulated "dangerous voltage" within the product's enclosure that may be of sufficient magnitude to cause an electric shock

The exclamation mark within the equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in this user manual.

WARNING: TO PREVENT FIRE OR SHOCK HAZARD, DO NOT EXPOSE THIS APPLIANCE TO RAIN OR MOISTURE.

CAUTION: TO PREVENT ELECTRIC SHOCK, MATCH SAA AUSTRALIA PLUG CAREFULLY, FULLY INSERT DANGER OF EXPLOSION IF BATTERY IS INCORRECTLY REPLACED. REPLACE ONLY WITH THE SAME OR EQUIVALENT TYPE.

This product contains a low power laser device.

1. Remote Control functions and operation.

Open the back cover in the back, put two batteries in (check that they are inserted with the correct polarity) then put the cover on. Aim at the front end of the reception window of the power amplifier, after that, you can operate the system easily with the remote control.

Batteries should be inserted with the correct polarity

2. Remote control maintenance

- Keep the surface of the remote control and keys clean, because accumulated dust can alter the function of the keys.
- Do not place the remote control in a damp or rainy place.
- The batteries of the remote control need to be replaced under the following conditions.
 - Continuous use for more than three months.
 - The distance capacity of the remote control appears to be shortened.
 - The power amplifier responds slowly or has no response when pressed.

3. Disc maintenance & cleaning

After a certain time, the disc will be covered with dust and may become damaged. It is very important to keep discs clean, so please use a cleaning cloth to clean the discs before playing.

Incorrect cleaning

Correct cleaning

Note:

- Please use a special solution to clean the discs. Do not use any volatile solutions for cleaning, ie, petrol, alcohol, etc.
- Do not expose discs to high temperatures, direct sunlight or damp as it may cause damage to discs.
- Protect the discs from fingerprints. Do not use a product which may damage discs.
- When discs are not in use, always store them in their cases..

iPod operation

iPod MANUAL INSTRUCTION

1 STANDBY

Press the key when you are not using the machine, in order to save energy.

2 OSD-SCREEN DISPLAY

Press OSD key, the screen will show current situation, time, remaining time and other functions.

3 PROG

Press PROG, the screen will show the programme menu. The machine can program a sequence of 20 tracks (VCD) or chapters (DVD). After entering the PROG menu, the green cursor will stay at No.1 place, input the track (VCD) or chapter (DVD) number that you want to play first by pressing the numeric Key (0-9). Then press the direction key to move cursor to the place of No.2, the operation is the same as above. If you make a mistake or if you want to change the order of the programme, you can move the cursor to the place that you want to revise by pressing the direction key and input new numbers. After setting, press "start" to start program playing. Press PROG and exit the PROG picture, then press PLAY key to play normally.

4 A-B REPEAT

A-B repeat function that lets you set your favourite scenes for instant repeat:

1. Press the key at the point where you want the repeat to start;
2. Press the key again at the point you want to repeat, then the function will be activated;
3. Under A-B repeat function, press this key again, the function will be cancelled.

5 REPEAT

If the REPEAT key is pressed when the machine is playing, the track will repeat, if you want the whole program to repeat, press the REPEAT key again.

6 GOTO

The GOTO button allows you to move to the place of your choice. After pressing the GOTO button, enter the track, title of chapter of your choice using the number keypad, or enter the exact hours, minutes and seconds corresponding to the place where you wish to start playback.

Remote control function

7 ST/MOL/R

When playing radio, you can press this button to choose stereo output; When playing disc, press this button to choose stereo/Left/Right output; When playing bilingual disc, press this button to choose output language.

8 P/N-MODE SELECT

Press the key to select the PAL, NTSC, AUTO.

9 MEMORY-STORAGE STATION/STOP

- After searching for a station, press this button to memorise it. You can choose the pre-selection number using the numeric keypad.
- In normal playing state, press this button to go to stop mode, the TV screen will show the start logo. As some disc, the player can recall the location where stopped, such as DVD. Press STOP twice to stop completely.

10 FORWARD/BACKWARD SEARCH / QUICK FORWARD/BACKWARD

Press the key without stop for three seconds to search channel forward and backward.

Press the key, you can choose 2X, 4X, 8X, 16X, 32X five kinds of speed to play (no sound), press pause key to recover the normal speed.

11 SLOW

Press this key when playing a DVD/VCD disc, it will play at 1/2, 1/4, 1/8, 1/16 of the normal speed.

Then press the PAUSE key to return to normal playback.

12 MENU

Press this key (only available during DVD playback) and the main menu will appear. Press the direction keys to choose a program and then confirm.

13 ANGLE

Some DVD discs can be played at different angles, please use this key to select any angle to enjoy the program.

14 DIRECTION KEYS (UP/DOWN/LEFT/RIGHT)

Being in Subtitle / Menu / Setup states, press these keys to select the program or items what you need.

15 CLOCK

When the machine is in stand-by mode, use the direction keys to adjust the time.

16 TV-MODE

During DVD playback, press this key to choose among the following options: S-VIDEO, YUV, SCART.

17 DVD/USB/CARD

Being in DVD mode, you can switch to DVD/USB/CARD mode by pressing DVD/USB/CARD key, TV Shows: READ CARD, and turns to play automatically after 5-10 seconds.

18 PBC

During playback of a disc that is more advanced than the VCD 1.1 format, press this key to display the PBC menu on the screen. You can then choose the play mode. Press it again to cancel the function. You can only choose the program using the number keys or with the skip forward/backward keys.

19 MUTE

When playing a disc, press mute key to cancel audio output, press it again to cancel the function.

20 INPUT

Press the key when the machine is turned on, to change the input: RADIO/DVD/iPod.

21 TREB"+"/TREB"-

Press the keys to strengthen or weaken the treble effect. (0-14)

Remote control function

JPEG/MPEG-4/USB/CARD/FM,AM

About JPEG

The JPEG format adopts the most efficient compression which is widely used as reduce the size of pictures for storage.

Even if pictures are compressed 15-20 times, the effect is still good. It is supported by most picture processing software, is suitable for picture storage, it contains a small amount of data and is easy to use. The system can read JPEG format picture CD discs.

Displaying a picture

1. Insert the disc. The machine will begin to search disc information and the main menu will be displayed on the screen. The indexes are displayed at the left of the screen and their contents on the right. Navigate within the menu using the direction keys to underline the required index, then move to the right to select the first file. A preview of the photo will appear on the left. You can choose to display this photo by pressing ENTER or by moving from picture to picture using the direction keys or directly, by entering the photo number using the numeric keypad. In playback mode, in order to move from photo to photo, press the "skip track" key. Press the stop key to return to the menu.

Other functions

1. When playing JPEG files, the system has "pause", "play" and "repeat" functions.
2. You can enlarge a picture by pressing the "zoom" key. Press the key continuously to obtain an enlargement (x2 x3 x4). Press the "zoom" key again to return to normal play mode.
3. When the zoom is not activated, use the direction keys to rotate the image.

MPEG-4

MPEG 4 is a new multi-media standard which can record DVD-quality data onto CDs, whilst preserving image quality.

1. Put an MPEG-4 disc in the CD tray, press play key. The content will appear on the TV screen. You can now select the file of your choice with the direction key or the numeric keypad.
2. The above mentioned operation steps work when playing most MPEG-4 discs.

USB/CARD function

In DVD mode,

- 1) If there is no disc, the USB/CARD will play automatically when the USB/CARD is inserted. If press the OPEN key, it will change to the disc playing situation.
- 2) Inserting the USB in the condition of disc playing situation, press the DVD/USB/CARD key once turns to USB playing, press it again turns to SD card playing, and turns to DVD disc playing by pressing at the third time.

Using FM/AM functions

1. Connect the FM/AM antenna to a FM/AM antenna socket.
2. Press the "INPUT" key on the remote control or front panel to enter radio mode.
3. Press the "FM/AM" key to select required wave band.
4. Press the UP/DOWN key to search for the required frequency, press the SEARCH+ or SEARCH- key continuously in order to start automatic searching.
5. The screen will display the stations frequency when it receives the signal. Press the memory key, to memorise the radio station and the screen will display the frequency of the radio station, if you want to store the station under serial number, press the button again; if you want to store the stations in order of frequency, press the memory key again. If you want to store the station under another number, press the memory key then choose another number using the numeric keypad. Press UP/DOWN key to select desired serial number, then press the memory key again .
6. By following steps 3 to 5, the machine can store up to 40 channels.

Trouble shooting guide /Technical specifications/Remarks

Common problems and their solutions

Because of the incorrect use, the machine may become damaged or may break. In these cases, please refer to the following solutions. If these are of no help, please refer to your retailer.

PROBLEM	PROBLEM CAUSE	REMEDY
No power display	Power plug not inserted properly; there is no power in the socket; the power is not switched on.	The jack must be electrical, press the plug, turn on the power.
No picture	Video line not properly connected; TV not properly set up; N/P is not selected correctly.	Connect the video output line correctly; set the TV into the AV channel; select a suitable mode (N/P).
Disc can not display	The standard of the disc is unsuitable; disc scratched /dirty; disc loaded upside down	Use suitable discs, make sure discs are clean; make sure discs are loaded correctly.
No sound	Audio line not properly connected; the volume is too low.	Connect the audio line correctly; adjust the volume.
Bad image definition and no colour	The quality of the disc is bad.	Use a better quality disc.

Remarks

NOTE:

***The quality of JPEG photos and the speed with which they can be opened depend on the resolution & the compression ratio of the photos.

Some JPEG photos may not be played due to disc quality and formats.

***Some DVD+R/RW, DVD-R/RW discs may not be played due to the quality or burning conditions.
