### Functions

**Steam (steam only):**

Whether you want to cook, re-heat, defrost or sterilise, the steam function is your gentle, healthy and regenerative alternative. A great alternative to a double oven when coupled with a convectional oven.

**Meat Cooking function:**

Automatic function with 5 preset programs to cook different types of meat. Preset cooking duration can be modified.

**Fish Cooking function:**

Automatic function with 5 preset programs to cook different types of fish. Preset cooking duration can be modified.

**Vegetable Cooking function:**

Automatic function with 5 preset programs to cook different types of vegetable. Preset cooking duration can be modified.

**Reheat/Sterilise (steam only):**

Gently reheat food retaining moisture, colour and flavour. Sterilise babies bottles & preserving jars etc.

**Defrost function:**

Manual function. The temperature is always very low (40°C) to defrost food without cooking it. Adjustable defrost duration depending on user's wish.
