Minimum Recommended Airspaces

If you have a cupboard above the refrigerator with a rear gap of less than 100mm (Y), recommended minimum clearance at the top of the refrigerator increases from 30mm to 70mm (X).

Please note: Doors are designed to sit proud of cabinetry (not flush).

When positioned in a corner area, spacing of at least 350mm on the hinge side will allow the door to open enough to enable the removal of bins and shelves.
