

SACD8

smeg 8kg condenser dryer

EAN

9345025001276

finish	all white, satin chrome door	
display	LCD	
size	846mmH x 595mmW x 598mmD	
capacity	8kg	
programs (20)	cottons (x3) timer small load 35 shirts denim delicates mixed	sportswear wool freshen up everyday gentle cupboard/iron dry airing
features	LED filter cleaning indicator LED water tank full indicator LED condenser cleaning indicator	stainless steel drum internal lighting reverse drum action
dry temperatures	5 – 35°C	
spin speeds	600, 800, 1000, 1200 rpm	
delay start selection	0–24 hours	
optional selections	dryness level, easy iron	
consumption	350 kWh per year	
noise	65 dBA	
electrical input	220–240V/50Hz	
total current	10 amps	
total power	1850–2200 watts	
safety	child lock, auto stop when door opened, overheat temperature protection	
package dimensions	880H x 650W x 660D	
net weight	40.5kg	
gross weight	42.5kg	
warranty	two years parts and labour	

ENERGY SAVING TIPS

- Operate your machine at the highest capacity allowed but do not overload (see Program and Consumption table in your manual).
- Use faster programs for smaller loads.

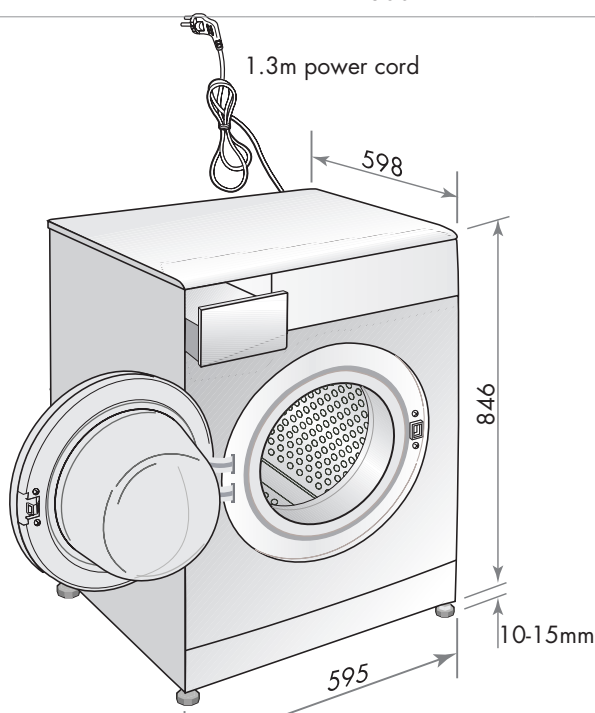

CONDENSER DRYER TECHNOLOGY

Condenser dryers pass heated air through the load. However, instead of exhausting this air, the dryer uses a heat exchanger to cool the air and condense the water vapour into a collection tank. The dryer air is run through the loop again. The heat exchanger uses ambient air as its coolant, therefore the heat produced by the dryer will go into the immediate surroundings instead of the outside.
