- 2.0 Star energy rating

### ANTI-CREASE FUNCTION

Helps minimize the amount of ironing by adding an extra 30 minutes running time after the program is completed to loosen the clothes in order to protect against creasing.

### ENERGY CONSUMPTION

Equipped with a 2.0-star energy rating this dryer will take care of your drying needs without an impact on the environment & your energy bill.

### ELECTRICAL REQUIREMENTS:

This unit is supplied with a 10 amp plug & cord.

### ENERGY USAGE:

314 kWh per year  
(Using Extra + Cotton program, use once per week)  
(2.0 star energy rating)

### WEIGHT:

44kkg (gross) / 41kg (net)

### INSTALLATION:

For all installation, please refer your qualified technician to our product manual.

### CLEANING AND MAINTAINING INFORMATION:

To keep your dryer running efficiently, try to clean the lint filter inside the door before every cycle, and clean the heat exchanger at the base of the machine about once a month. A tank at the top of the machine will collect this condensed water, so you'll need to empty before each use.

### PRODUCT DIMENSIONS

595mm Wide x 615mm Depth x 845mm High
