Extra large 94L gross capacity

When it comes to capacity, bigger is definitely better. Despite its standard dimensions, the 94 liter* Beko oven has among the most spacious interiors among in its class. The extra large interior provides enough room to roast a big turkey, or prepare a big feast for family and friends. It's convenient for large families, or anybody who wants to get the most out of a Standard 60 cm width built in oven.

AeroChef and Breadmaker Accessories

Thanks to the Beko ovens with the AeroChef Air Frying accessory, you can prepare healthier fried foods by using only small amount of oil. This accessory utilises hot air within the oven to cook meals which normally need to be fried. The rotating basket uses 13 times less oil as regular frying and is enough to prepare delicious crispy fries, wings and cutlets. Moreover, you can fry nuts or pop corn using the AeroChef Air Frying accessory.

Pyrolytic Self-Cleaning

Removing greasy stains that accumulate in the oven over time can be a burden. Beko Pyrolytic Self Cleaning ovens save you from the trouble of scrubbing those hard-to-reach surfaces. The 120-min pyrolytic self-cleaning cycle burns stubborn stains to fine ash as the oven heats itself to 500 °C. The ash can then be simply wiped away with a piece of cloth, without the need of any detergents or chemicals.

Odour Free Cooking

Selected Beko ovens are equipped with a special odour filtering system ensuring unwanted food odours do not spread throughout your kitchen.
