GENERAL INFO

DESIGNED FOR MAINS/TOWN WATER

Whole House Single Water Filter Systems

Enjoy purified water at every outlet in the house. These systems are designed for mains water supplies reducing chlorine, taste & odour, chemicals and sediment in your water for the budget-conscious householder, giving good general purpose filtration.

This system protects and prolongs life of appliances throughout your home and features long-life filter cartridges. It operates on low pressure which is important when multiple taps are used simultaneously throughout the day.

The Puretec WH Series is a logical choice for people concerned about sediment and chemicals in drinking water or when showering and will improve quality of life. The system provides spring-like quality water throughout the house and is affordable for all.

The Puretec WH2 Series systems are designed for the budget-conscious householder, giving good general purpose filtration. These systems do not require power to operate, and are very easy to maintain, just replace the filter cartridge every 6-12 months or when the taste and odour returns.
