

KS5990FW

60CM CLASSIC SERIES COLUMN WINE CELLAR,
36 + 36 BOTTLE CAPACITY

AN EXPRESSION OF QUALITY AND THE PINNACLE OF WINE PRESERVATION

For those who prefer the consistency of an aesthetic line of elegance and individuality, Fhiaba has developed a series of wine preservation models realising exceptional solutions to conceal the Wine Cellar seamlessly within the interior of the kitchen space, without the compromise of comfort, functionality and design excellence.

A great wine has to be stored in a special environment. The Fhiaba cellars have been designed to store fine wines under ideal conditions. Fhiaba knows as well as anyone the four enemies of wine are: temperature, humidity, light and vibrations. Significant attention is paid to creating appliances that protect wine from each of these elements.

The Riserva Storage

All the technical and aesthetic features of our refrigeration appliances remain unchanged in our cellars. The Riserva storage compartment gives the option of modifying the humidity level as well as the storage temperature, to ensure the right environment for ageing.

Friulian Crafted Shelves

Crafted from the timber forests in Friuli, a village near the Veneto region, these shelves are made from high quality natural beechwood and are made by local Friulian craftsmen exclusively for Fhiaba. The angle of the shelves has been designed to improve the display of the labels, to make use of every inch of space of the Wine Cellar and to reserve the wine in the best way possible, including once the bottles have been opened.

PRODUCT DETAIL

FEATURES

- Meticulously designed & built to withstand prolonged use
- Available with left or right hand hinge options
- Provent: guarantees a homogeneous distribution of cold air and favours the deep use of the internal compartments.
- Our Classic design seamlessly blends into your kitchen
- Equilance: the variable fulcrum hinge allows the perfect flush installation and the total extraction of the internal shelves
- Smart-touch TFT controls manages and monitors the entire cellar operation process is simple to use.
- Digital temperature display for both upper and lower temperature zone
- Accurate temperatures. Thanks to the built-in thermostat, the temperature is always accurate
- Low vibration compressor
- Anti vibration system
- Insulated variable speed compressor maintains precision temperature control with minimal vibration
- Uniform temperature throughout allowing for better wine preservation conditions
- Fhiaba Link Device (FLD)
- Deep capacity within a standard depth is achieved by a side-mounted evaporator, which leaves greater interior space
- Humidity control - Our wine cellars offer three different humidity level settings: low, medium and high. This will also assist in your corks not drying out
- Satin scotch bright stainless steel exterior body AISI304

INTERIOR

- Complete anti-bacterial stainless steel interior
- 12 LED lights specifically positioned within the sides of the cellar to ensure even light throughout, regardless of what is in the compartment
- Timber shelves crafted exclusively for Fhiaba from the timber forests in Friuli, Italy
- Wine cellar compartment 1:
6 wine shelves in natural oak wood
- Wine cellar compartment 2:
6 wine shelves in natural oak wood
- Shelf capacity 599: 6 bottles / 750ml:
Fits burgundy and Bordeaux bottles
- Full extraction wine shelves with soft closing runners

TEMPERATURE

- Wine cellar compartment 1: from + 4 ° C to + 18 ° C
- Wine cellar compartment 2: from + 4 ° C to + 18 ° C

DOOR

- Dual-movement patented hinge, with self-balancing movement ensures stability and resistance
- Pivoting door hinge system enables the appliance to be built-in
- Three-layer glass door
- Soft closing hinge and door
- Door open alarm
- Door opening angle: 105°

NOISE

- Noise level - 40db

CAPACITY

- 36 Bottles - Wine Cellar: for storing wine ready to drink or to drink soon
- 36 Bottles - Riserva: this compartment gives the option of modifying the humidity level as well as the storage temperature, to ensure the right environment for ageing.

TECHNICAL

- Uniform 2050mm height across all Classic models
- Energy consumption: 256kw/yr
- Net Weight: 205kg
- Power lead length: 2m
- Front and rear adjustable feet up to 25mm height

ACCESSORIES

- KCCIT Joining kit - central (Joining brackets, airflow separation included)
- BH60: Display rack for your prized bottles of wine made of solid oak wood for 6 750ml bottles or three 1.5L magnum bottles
