Features and Benefits

o High performance extraction fan

High performance extraction fan rapidly removes steam, smoke and cooking smells from your kitchen. Three-speed switch lets you select the fan strength you need – half strength for steamed vegetables; full strength for stir fries.

o Halogen lamps

50 watt halogen lamps illuminate the entire cooking surface. Lamps are quick and easy to replace.

o Multi-layered micromesh filters

Multi-layered micromesh filters effectively trap grease. They're simple to remove and are easily maintained with a regular clean in the dishwasher.

o Rectilinear design

Simple styling makes cleaning easy. High quality stainless steel or powder coated steel and the fingertip controls are easy to clean with a damp cloth.

o Thermal overload switch

Thermal overload function that senses extreme heat and disconnects power to the motor temporarily. If you have a cooking disaster, and something catches fire, the rangehood automatically switches off to prevent flames and sparks being sucked into the ducting or ceiling.

o Recirculation option

In situations where ducting isn't possible, your rangehood can be fitted with charcoal filters that effectively cleanse the air before returning it to the kitchen.
