Using your Breville Crêpe Creations

Before first use, remove any packaging material, promotional stickers and labels and wipe the cooking plate with a damp cloth, then dry thoroughly.

The red 'Power On' indicator light will illuminate to show that the Breville Crêpe Creations cooking plate is heating.

The cooking plate will reach the selected temperature in approximately 4 minutes and the green 'Ready' indicator light will illuminate.

The green 'Ready' indicator light will cycle on and off during use indicating the appliance is maintaining the selected temperature.

Note

When cooking crêpes, preheat cooking plate on temperature setting 2 then pour a small amount of batter onto the centre of the cooking plate. Quickly spread the batter in circular movements using the batter spreader until desired diameter of the crêpe is achieved. (Fig 1-4)

A selection of pancakes, pikelets and hotcakes can also be made on the Breville Crêpe Creations using recipe ideas on Pages 10 – 16.

Fig.4

Allow the crêpe to cook until the top surface is no longer runny, about 45-60 seconds, and the crêpe can be moved slightly on the cooking plate. Insert a large heat proof plastic food slide under the crêpe and turn the crêpe over to cook the other side.

Do not use metal utensils to turn the crêpe as they will scratch the surface of the non-stick cooking surface.

Note

Cook crêpe until just golden. Do not overcook. Remove crêpe from the cooking plate using a large heatproof plastic food slide and place onto a storage plate. Repeat with remaining batter stacking crêpes onto storage plate with pieces of grease-proof paper in between each crêpe to prevent sticking. If the last crêpe cooked was too dark, adjust the temperature selection of the Breville Crêpe Creations before making your next crêpe.

Crêpes can be either rolled or folded (Fig 5, 6 & 7) and filled with desired ingredients (refer to recipe ideas on Page 12-16).

At the end of cooking, switch the crêpe maker off by pressing the On/Off switch to the 'Off' position. Turn the power off at the power outlet and remove the plug. Allow the appliance to cool then clean before storing.

Care and cleaning

Always clean the Breville Crêpe Creations after each use to prevent a build up of baked-on foods. Ensure the Breville Crêpe Creations is switched Off at the On/Off switch, turned Off at the power outlet and that the power cord is unplugged. Allow to cool then wipe. Wipe the cooking plate with a damp cloth. If baked-on foods cannot be removed by this method, brush with a little oil or melted butter. Allow to stand for 5 minutes, wipe with a damp cloth and then dry thoroughly. Dry the appliance thoroughly before storing.

Never use abrasive cleaning agents, oven cleaners or materials that may scratch the surface of your Breville Crêpe Creations. This could damage the non-stick coating.

If residue build up occurs, lightly brush with lemon juice and wipe with a damp cloth.

Note

Storage

Ensure the Breville Crêpe Creations is switched off, cooled and cleaned before storing. Wrap the cord around the cord storage area under the base of the appliance and stand upright on the feet under the base. Do not store anything on top.

DO NOT IMMERSE THE CRÊPE MAKER, POWER CORD OR PLUG IN WATER OR ANY OTHER LIQUID.
