Total Sound Collaboration

Feel carried away by movies, music and stadium sports, with sound tailored to your space and synchronised to the speakers in your compatible Samsung TV.²

Built-in Centre Speaker

A dedicated centre speaker helps ensure voice clarity by focusing on the centre of the stereo field where most speech usually occurs in films and TV shows, to help you get crystal clear dialogue.

¹ Source content must be Dolby Atmos® or DTS:X enabled for Dolby ATMOS® or DTS:X playback. Sound effect may vary depending on environmental characteristics (including ceiling). Samsung define "True Dolby Atmos" as featuring an upwards-firing directional speaker for three dimensional sound.
