9kg Inverter Heat Pump Dryer in White Finish
with Smart THINQ™

9 Star Super Efficiency Rated Dryer

Available November 2017

Features

✓ **Inverter Heat Pump Dryer**

✓ **Sensor Drying**

✓ **Smart THINQ™ with Wi-Fi**

✓ **Included Accessories**

✓ 9kg Capacity

✓ 9 Star Super Efficiency Energy Rated

✓ Stainless Steel Drum

✓ LED Interior Light

✓ 8 Sensors

✓ Time Remaining Display

✓ Delay End

Inverter Heat Pump Dryer

Inverter Heat Pump Dryer uses a refrigeration system to dry and recycle the same air so it consumes a fraction of the energy used by conventional dryers through the recycling and reclaiming heat process.

Sensor Drying

LG Sensor Dryer - uses 5 sensors to monitor the heat exchange, moisture and air temperature for optimal drying results. The sensors automatically control the drying time and temperature based on the selected program and help prevent over drying.

Smart THINQ™ (Wi-Fi)

With a smartphone and the LG Smart THINQ™ app the dryer can "talk for itself" to find a solution to help save time and money on unnecessary call outs.[1] Once connected to your home Wi-Fi, you can remote set and start your dryer and even view usage history. When your drying is complete, you will be notified on your Smartphone.[1]

Included Accessories

Stacking Kit- allows you to securely stack this machine on top of your front load washing machine. This is suitable for both 550mm & 600mm washing machines.
Drying Rack - great for items that you don't want to tumble dry such as shoes or backpacks.

[1] Compatible smartphone required, Android 4.1.2 (JellyBean) or later or iOS8 or later required for LG Smart THINQ™ app and Audible Smart Diagnosis feature. Mobile 3G/4G or Wi-Fi connection, LG Smart THINQ™ app is required for Remote Start, Usage History & Notifications.
