Saeco

sense and simplicity

Highlights

Compact and stylish

Compact and stylish, the Syntia is designed to delight both your palate and your eyes — the perfect fit for a modern kitchen.

Espresso and cappuccino

Whether you want to enjoy an espresso, a cappuccino or a long coffee, your specialities are accessible at the touch of a button

Adjustable ceramic grinders

Whole beans are freshly ground for every cup by ceramic grinders, always preserving their full aroma and never overheating the coffee.

Auto cleaning and de-scaling

Easy to use and easy maintenance: Thanks to the automatic cleaning and de-scaling cycles, you are guaranteed perfect enjoyment every day and maximum longevity for your machine.

Removable brewing group

The brewing group is at the heart of every fully automatic coffee machine and it should always be kept clean. A task that doesn't get any more convenient than with a Saeco: remove, rinse and re-insert — finished.

Colour coded user interface

Enjoy direct and clear interaction thanks to the self-explanatory icons display. For maximum convenience the icons are coloured according to the traffic light colours: Red requires action,

Yellow means the machine is "busy" (i.e. heating up), Green is ready to use.

Coffee customisation

Philips Saeco machines offer you the possibility to customise your coffee to exactly the way you like it—from the most intense espresso to a mild cup of long coffee.

Ergonomic day to day

Philips-Saeco is a synonym for convenience: refilling beans or water, emptying the coffee-dump box or the drip tray, all compartments are directly accessible.

Automatic milk function

With the integrated milk carafe, all you have to do is fill it with milk and simply press the cappuccino button. Your drink will be served within seconds as creamy, frothy milk is poured automatically into your beverage.
