Product highlights

iCareTec
smart textile protection

Smart textile protection

It guarantees THE perfect temperature for ALL garments with no setting required. In other words, perfect results with less effort.

Saphir 3D soleplate

The patented upward curving soleplate guarantees 360° glidability over any fabric and any obstacle – even backwards. Avoid getting stuck on buttons, pockets and zippers.

Great performance

Thanks to 2400W of high power output.

Auto shut-off

After 8 min in vertical position or 1 min in a horizontal position for safety and energy saving.

Powerful steam options

Three great steam features that deliver high output and great results. Variable steam up to 50 g/min (in Turbo mode) and steam shot of up to 230 g/min lets you eliminate the toughest wrinkles.

Anti-drip

The improved anti-drip system ensures that no water droplets escape from the soleplate, even when ironing at low temperature.

Self-clean

Ensures long-lasting steam performance. Simply remove the steam knob for quick and convenient cleaning.

Easy Refill

The new TexStyle 9 features a larger water tank opening and a more ergonomic lid that makes refilling faster and easier.

Technical data

Model	SI 9148 BK
Colour	Onyx Black
EAN	TBC
SKU	0127404003
Power	2400 W
Soleplate	Saphir 3D
Temperature setting	iCare technology
Safe on garment	●
Continuous steam	up to 50 g/min (in Turbo mode)
Steam shot	230 g/min
Precision zone	●
Auto-off	●
Self clean and Anti-calc	●
Anti-drip system	●
Water tank capacity	330 ml
Suitable for tap water	●
Easy refill	Extra-large water tank opening
Water spray	●
Beaker	●
Power cord	2.5 m
Dimensions (DxWxH)	ca. 30x15x13 cm
Weight	ca. 1.59 Kg
