SCHOCK

Schock sinkware has taken Europe by storm. With stunning crisp lines and a silky smooth finish, this quality German engineered sinkware has been created using state-of-the-art composite Nanogranite® materials. It offers exceptional strength and durability, stain resistance and inert, antibacterial properties. The range is available in 'metallic' black, 'stone' grey, 'polaris' white and 'stunning' bronze.

NANOCLEAN-EFFECT

The premium Schock Cristadur® material also offers the Nanoclean-Effect. An extremely fine nanostructure makes it virtually impossible for bacteria and dirt to stick to the material's surface.

ANTIBAC

Sinks used to prepare food or wash dishes and pans provide a breeding ground for bacteria. Schock Antibac is a hygiene protection system available exclusively with Schock sinks. The integrated protection mechanism uses natural silver ions to reduce bacterial growth by up to 95%.

BARAZZA CUBO

FLUSH MOUNT, INSET & UNDERMOUNT

The Barazza Cubo flush mount, inset and undermount sinkware ranges offer a new level of design style for your kitchen. Commercial quality 1.2mm thick stainless steel and voluminous bowl sizes allow you to be the master chef of your kitchen domain. Furthermore, the Cubo sinks can be either flush mounted or inset to your bench top for that completely seamless look. They have a 12mm internal radius edging on base for easy cleaning.
