

CREST

FULL MOTION LCD TV WALL MOUNT

Crest LCD TV Wall Mounts offer the latest in innovative functionality and contemporary design to maximise your viewing pleasure. Designed to fit universally and compatible with a wide range of flat panel models on the market, they will make your tv an absolute "showpiece".

DESCRIPTION

Rigid extruded aluminium construction and anodised finish. Fits most screens up to 30" with VESA 75/100 mount pattern. Holds weight up to 18kgs.

FEATURES

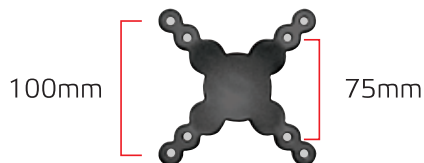

- 180° swivel
- Extends 41cm (16.4") from the wall
- +/- 15° tilt

INSTALLATION

Installing the CREST full motion lcd tv wall mount has never been easier. Simply attach the mount to the back of the tv, secure the bracket to the wall using the embedded spirit level to ensure correct levelling and slide together. Please refer to more detailed instructions included inside.

VESA COMPLIANT

Fits most screens with VESA 75/100 mount pattern, up to 30", not exceeding 18kg.

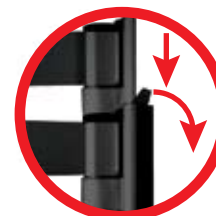

STEP 1

Install the mount to the back of your LCD TV

STEP 2

Install the bracket to the wall with the help of the spirit level guide

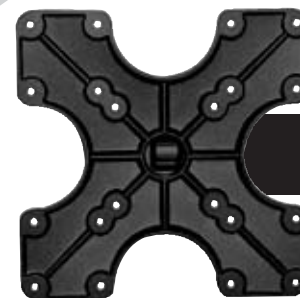

STEP 3

Slide them together

STEP 4

Gather and route your cables neatly with the cable management clamp ring

UPGRADE NOW

with the purchase of the CREST LCD004 adaptor plate, you can increase your lcd tv size up to 40"
