*Samsung Smart Home apps are compatible with selected Samsung Galaxy S and Samsung Note series devices. (1)- Supports Andoir(TM)4.0(since Galaxy S2) or higher and iOS7 or higher. Additional Data charges may apply.

New Slim Height Design and Real Suction 1.0

Featuring a slimmer body and real suction 1.0, the POWERbot Pro helps suck up dirt and dust that's hidden deep inside the pile of carpets. It is only 9.7cm high which is 28% slimmer in size compared to the Samsung POWERbot VR9000.

Edge Clean Master

Edge Clean Master bristle brush is placed very close to the front of the cleaner, with just a tiny 15mm gap, so when it gets to the walls or corners it helps sweep up dust and hair on the edge of the room. In addition, the Auto 'Shutter' automatically activates and drops down to create a barrier that helps the vacuum cleaner collect dust close to the edges.

Wi-Fi Controls

Wi-Fi Connectivity allows you to control your POWERbot remotely and clean while your out of home. Just connect your POWERbot through the Smart Home app and set up a daily cleaning schedule for your POWERbot.
