Option Terms and Conditions

New Infinity range

Rinnai revolutionised the Australian water heating market in the early 1990's when it launched the first electronic controlled Gas Continuous Flow Hot Water System. Appropriately named, the RINNAI INFINITY delivered new user experience of steady and continuous temperature controlled hot water that never ran out.

Fast-forward 28 years, the RINNAI INFINITY has been re-invented. Rinnai has introduced significant improvements and changes to its flagship models; Infinity 16L, 20L, 26L and 26L Touch as well as adding a new 12L offering while at the same time maintaining performance and the high level of quality expected from the Rinnai name.

Pricing for the new Infinity range and related accessories will remain the same as per the current price list effective 1 March 2018.

New Infinity 12L

The newest offering to our market leading range, the Infinity 12L offers all the features and benefits of its larger counterparts but aimed at smaller dwellings and the replacement mechanical instantaneous market. This unit utilises 240V power to deliver unparalleled water temperature stability, energy efficiency and reliability. The Infinity 12L comes with a status monitor that displays the set temperature, assists with servicing and fine tuning.

Controller options also ensure that energy efficiency and user comfort is maximised, controllers can be either wireless or hard-wired. For installations that require a minimum footprint or an unobtrusive aesthetic look, our recess box and pipe cover options are the perfect solution.

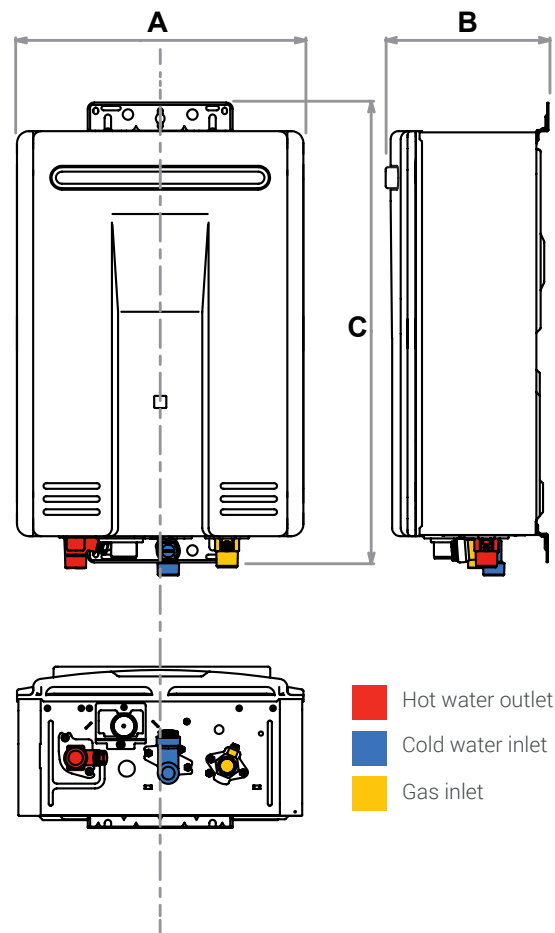

Features and Benefits

- Quicker commissioning and installation
- Market leading quality
- 1.5L/min minimum operating water flow rate
- Improved resistance to corrosion (Three times that of our builders range)
- Modern design packaged in a slimline case construction
- 50°C models available*
- Enhanced electronic controlled safety monitoring and anti-frost protection
- 6 Star energy rating
- Puretemp™ control
- 25 Year heat exchanger warranty[#]
- Compatible with low flow WELLS rated shower heads
- Built in status operation monitor

*Adjustable upto 53°C. For 60°C plus installations a tempering valve in accordance with as 3500.4 is required

[#]Made from premium materials and built to last, Rinnai provides a standard 3 year (12 Year Heat exchanger) parts and labour warranty on all Rinnai Infinity Continuous Flow Hot Water systems plus an optional 13 years extended heat exchanger warranty.

Accessories

Rinnai offers a comprehensive range of new accessories that assist with the installation and visual impact of our continuous flow range. Working closely with customers and plumbers Rinnai has developed and improved its offering of installation aids and accessories that are specifically suited to the new Infinity Range.

Controller (MC601QA)

Our new Universal Controller is designed for user comfort and reduced water wastage. Minimalist in design the universal controller blends into any surrounding.

Pipe Cover (PCD01W)

Colour matched to enhance the installation by hiding unsightly pipe work and complement its existing surroundings.

Recess Box (RBOX06LW)

Designed to house and hide the pipe work but also create a smooth and clean finish to the installation.

New Order Codes

New Infinity model codes are identified with a suffix A on the model code and have new barcodes. New models are further identified with updated packaging and will start to flow through to stores April/May as current stock is run-out.

Extended Warranty Option Terms and Conditions

- Participation in this extended warranty program is optional and subject to these terms and conditions.
- Within the first 12 months of installation you must complete and submit your product warranty registration. The Extended Warranty Option can only be registered online, please visit www.rinnai.com.au for registration.
- Each eligible Infinity product must have a general maintenance completed in accordance with the service schedule, performed by Rinnai Australia Pty Ltd (or its nominated appointee) as follows:
 - Serviced within the fifth year after the date of installation. **This provides an additional 4 years warranty on the Heat Exchanger (for a total of 16 years)**
 - Serviced within the tenth year after the date of installation. **This provides an additional 3 years warranty on the Heat Exchanger (for a total of 19 years)**
 - Serviced within the fifteenth year after date of installation. **This provides an additional 3 years warranty on the Heat Exchanger (for a total of 22 years)**
 - Serviced within the twentieth year after date of installation. **This provides an additional 3 years warranty on the Heat Exchanger (for a total of 25 years)**
- These services will be charged for by Rinnai.
- In addition to meeting the conditions set out above, it is essential to comply with all of the general terms and conditions of the product warranty.
- To obtain your extended warranty you must:
 - During your scheduled service year, contact Rinnai to have a general service performed, and charged for by Rinnai. Service can be booked on line or by calling 1300 555 545.
 - Ensure you retain proof of service in the form of proof of payment for service to Rinnai, and that the service maintenance schedule following has been completed and endorsed.
- Standard warranty applies should you not opt in the Extended Warranty program.
