### SPEED OVEN

A new addition to technologies for the kitchen, Smeg's Speed Oven is primarily a multifunction oven which is supplemented with the innovative microwave technology for faster cooking times. Smeg's Speed Oven cooks approximately 30% faster than conventional cooking, giving back today's most valuable commodity – time.

### SMARTSENSE PLUS

Smeg's SmartSense Plus provides a foolproof, step-by-step guide to cooking. The large TFT colour display is legible without reading glasses, and so simple to follow. SmartSense Plus also has 50 guided cooking programs and you can also save 10 of your most-used favourites.

### VAPOUR CLEAN

Smeg's Ever Clean enamel's tough surface has a glassy finish, so a simple spray of water and detergent around the cavity in conjunction with the Vapour Clean option will generate heat and steam to soften any grease for a wipe-clean result.

### EVER CLEAN ENAMEL

The superior quality of Smeg's patented Ever Clean enamel, which is highly durable and easy to clean, is the result of nearly 70 years of enameling expertise; ensuring long-life performance of every Smeg oven.

### SOFT CLOSE DOOR

The new soft-close mechanism on Smeg's oven doors ensures a two-stage soft and quiet close. Smeg's quality hinges also ensure the door will not drop on opening, an intrinsic safety feature.
