

Made in Italy. NEW for 2019

The finest black GAS cooker in Australia

FAN ASSISTED GAS COOKER

Ideal for homes wanting to get Off Grid. Features a simple 10 amp plug in electrical connection.

In a gas oven roasts are juicier and more succulent. There is less shrinkage when cooking meat in a gas oven.

The grill is electric and operates with the door closed to keep odours out of the kitchen.

Optional kickplate is available. 140mm high contact Glem Gas for details: info@glemgas.com.au

FAN ASSISTED GAS OVEN

This gas oven is fan assisted. It means that there are no cold spots even when cooking on multiple levels. The fan can be switched off to allow for baking of souffles with no air movement.

This cooker continues to operate during an electrical blackout. There is no pilot flame as the ignition is electronic and temperature is controlled using a thermostat.

The grill is electric, simply cleaner and safer. Even so the connection only requires a standard 10 amp plug in.
