

Canopy Rangehood AGQ

ILVE's AGQ100 range hood, which is reminiscent of an above fryer fish 'n' chip shop style extractor, combines innovation with a professional appearance and outstanding performance. The large tilted extraction surface and the completely stainless steel labyrinth filters form an almost impenetrable barrier to grease and are easy to clean. Boasting a sleek industrial design, the AGQ100 Rangehood is powerful enough to remove all cooking fumes with its fantastic four speed control, including indoor barbecuing and the most intense grilling or stir-frying cooking. Along with its purpose built canopy, this range hood is simply perfect for ILVE's inbuilt or freestanding ovens and various cook top combinations including the popular Tepanyaki plate and fryer options.
