double-glazed door

LED display

electronic timer with endcooking alarm

1 x 10W halogen automatic lighting

#### Standard inclusions

1 x glass tray

1 x wire shelf

#### warranty

two years parts and labour

## Functions

**Pizza (concealed floor element only):**

Establishing a hot residual and even heat into the pizza stone directly from the concealed floor element ensures crispy evenly cooked bases and perfect toppings.

**Static Grill (perimeter roof element + inner roof element) :**

Radiant heat is directed straight onto the top of your food. Use this function for toast, cheese melts, focaccia etc. Turn to this function toward the end of cooking if the food requires additional top browning. Oven door must be closed while grilling.

**Defrost (fan only):**

Defrost your frozen food without changing the appearance or character of the food with this fan assisted function. Choose length of defrost time by selecting a weight or a time.

**Microwave (microwave only):**

Great for cooking, thawing and heating – quickly and easily – the microwave function can also be combined with conventional functions, if available.

**Microwave & grill (microwave + grill):**

Combine traditional microwave functions with the convenience of a grill to achieve fast crisp cooking and heating.
