ignition	automatic electronic
gas connection	set for natural gas, ULPG adaptable
features	cast-iron trivets
option	Linear control knobs supplied
warranty	two years parts and labour

### SPACIOUS DESIGN

When space is not restrictive, this wide 90cm hob offers five burners ergonomically positioned for maximum benefit with the possibility of several styles of cooking at the one time.

### ULTRA-RAPID BURNER

This large and versatile burner suits the larger stock pots, boilers, saucepans and griddles. A wok stand is supplied for easy fitment over the centre trivet for stir-fry cooking.

### ELECTRONIC IGNITION

The cooktop is connected with a power cord of 1.3 metre length to be plugged into a GPO located according to installation needs below the benchline. This supplies a continuous stored charge to spark the gas supply to the individual burner of your choice.

### FLAME FAILURE DEVICE

A flame failure device is fitted to all five burners. The FFD ensures that should a flame be extinguished accidentally, the gas supply to the specific burner(s) is stopped. For absolute safety, the burner(s) can only be reignited by physically resetting the control knob(s) to the OFF position and then following normal ignition procedure. Simply depress and turn the control of the desired cooking zone for almost instant flame ignition.

### LOW MAINTENANCE

The seamless hob design allows for easy wipe-over cleaning. The control knobs, also, are removable for cleaning access. Trivets, burner assemblies and wok stand can be washed in warm soapy water.

### INSTALLATION

With a benchtop displacement of 75mm, the installation underbench is possible of oven or drawers.

### LINEAR DESIGN

The PSA906 fits within the Classic range of Smeg appliances with complementing aesthetics.
