High extraction capacity

Beko cooker hoods offer an odour and grease-free environment, leaving your kitchen clean and fresh. With a ventilation capacity as high as 800 m3/hour, selected Beko cooker hoods are powerful enough to refresh the air every two minutes in an average kitchen.*

* Calculated for a kitchen of size 10 m2.

Aluminium cassette filters

Aluminium cassette filters absorb any trace of grease and odour in the air. The filters are dishwasher safe and very easy to clean.

LED lighting

LED hob illumination lights are energy efficient and provide clear visibility while cooking.
