Features & Benefits

SmartTouch™ Controls

The SmartTouch™ controls access 6 cycles: Everyday, Delicate, Heavy, Freshen, Time Dry, and Air Dry.

Simple Installation

All our dryers have simple installation features. For wall mounting of Vented Dryers we include a mounting kit and easily inverted fascia that can be simply unscrewed, reversed and screwed back in place. Ideal for smaller spaces and apartments, Condensing dryers can be placed anywhere in the home- just plug in and go.

Auto-Sensing

Auto-sensing automatically senses the moisture inside the drum, shutting off at the perfect level so your clothes don't over dry, helping your clothes last longer and reducing energy wastage.

Easy Access 180° open door

Our vented Dryer doors open to a full 180° for easy access.

Drying Rack

Some things are just too precious to tumble. All Condensing Dryers and 6 kg vented models come with a drying rack, perfect for shoes, hats woollens and delicates.
