SMEG STAINLESS STEEL VICTORIA GAS COOKTOP

DESIGN AND MAINTENANCE

The seamless hob design allows for easy wipe-over cleaning and generous catchment of spills and accidental boilovers. The control knobs, also, are

removable for cleaning access. Trivets, burner assemblies and wok stand can be washed in warm soapy water.

60cm INSTALLATION

Despite occupying nearly 70cm bench space, the installed specification into the bench is only 56cm. This allows easy fitment into predesigned standard 60cm cabinetry and is suitable for much of the replacement gas cooktop market.

DUAL FLAME CONTROL

With individual control to each ring of flame, the ultra-rapid double burner cooking zone can selectively be used as another rapid burner with the larger outer flame (14 MJ/hr maximum) or, for the ultimate low simmer, use the inner flame ring exclusively (4.8 MJ/hr maximum). This exclusive centre burner is also perfect for the smallest of utensils, such as a one-cup espresso maker.

AUXILIARY BURNER

Also ideally situated, this small multipurpose burner is designed to accommodate even the smallest of utensils, such as a coffee percolator or one-cup espresso maker.

SIMMER CONTROL

All burners, including the ultra-rapid triple burner, can be adjusted down to a very low, safe flame for the gentlest of low heat simmers.

EAN 8017709209940

finish	Stainless steel
Size	685mmW x 500mmD x 32mmH
Cutout size	560mmW x 482mmD
installation	Topmount
capacity	Front right – 6.0 MJ/hr Front left – 4.8 MJ/hr Centre – inner 4.8 MJ/hr outer 14 MJ/hr Back right – 6.0 MJ/hr Back left – 11.5 MJ/hr
