

Key Features

1. Microfiber Filtration (Up to 98%)¹
2. Easy-to-clean Filter
3. Flexible Installation
4. SmartThings Home Care²

1

Help capture up to 98%¹ of microfiber release

Microfiber Filtration

Help capture the release of plastic microfibers from your laundry. The Less Microfiber™ Filter can help capture up to 98% of microplastics¹ released during a standard wash cycle.

2

Quick and simple to keep clean

Re-usable Filter

Save time and effort cleaning the re-usable filter. The movement of the internal blade ensures that microfibers are swept to one side which can help prevent clogging. This way, the Less Microfiber™ Filter only needs to be cleaned after every 30 uses and the microfibers can be easily removed⁴.

3

Suitable for any home

Flexible Installation

The Less Microfiber™ Filter cradle gives you the flexibility to mount your Filter in a variety of ways. You can attach it walls or simply use the cradle as a stand on top of your Samsung front load washing machine³ or nearby shelf⁵.

4

Smart maintenance. Easy upkeep

SmartThings Home Care²

Help keep your Less Microfiber™ Filter in optimal condition with ease. The SmartThings App² alerts you if problems with operating status or other abnormal conditions arise with the filter. It even notifies you when the filter needs cleaning or replacing.

¹ Tested at Ocean Wise Plastics Lab on the WW90T734DWH Samsung washing machine model (using a Synthetic cycle, approximately 2kg load of synthetic textile laundry with no detergent, at 40°C, wash rate of 50 revolutions per minute (RPM), motor operation rate of 82% and a spin RPM of 1200). The 98% amount was calculated by filtering drain water which passed through the Less Microfiber™ Filter through a 50um stainless steel filter, and comparing it against drain water from a wash cycle without the filter installed. Actual results may vary, depending on the wash cycle, type of detergent and laundry materials.

² Available via the SmartThings App on Android and iOS devices. A Wi-Fi connection and a Samsung account are required.

³ This filter is intended for use with Samsung front loading washing machines only (except 25" models). If the filter is used with non-front loading washing machines, Samsung's warranty will be voided. If filter is used with non-Samsung washing machines, Samsung's warranty is limited to the filter only. Drain pump dimension needs to be within 20~22mm for installation. (Using the adaptor included, filter can be installed to washing machines with 19~26mm dimension drain pumps as well.) If used with non-Samsung washing machine, water drain time may be longer than usual and effectiveness of filter may vary.

⁴ The captured microfibers should be discarded as general waste and not washed away with water. Based on internal test reports. Actual results may vary.

⁵ Must be installed higher than the washing machine drain.

SPECIFICATIONS	
Model Code	FT-MF
Material Code	FT-MF/SA
EAN Code	8806095147338
PHYSICAL SPECIFICATION	
Net Dimension (WxHxD)	100 × 215 × 281 mm
Net Weight	2.0 kg
Gross Dimension (WxHxD)	350 × 300 × 295 mm
Gross Weight	3.9 kg
Voltage / Frequency	230~240V / 50Hz
Power Consumption	7 W
DESIGN	
Body Colour	White
CONNECTIVITY	
Wi-Fi Enabled	Yes
App Connectivity	SmartThings App Support
