## THE ORIGINAL WATERPROOF TV

## Lifestyle Series

### FRAMED MIRROR HD TELEVISIONS

Never considered a television in the bedroom because you didn't want an ugly black box ruining the aesthetics of your room? Developed due to strong customer demand, this television solves that problem with style.

The L Series integrates a full HD LED television, with a beautiful hand crafted framed mirror. You choose the frame to suit your taste and design, and the television effortlessly compliments your room. No longer an eye sore but a tasteful addition. When off, the mirror creates the illusion of space, and when on, the TV is immediately able to entertain.

Delivered with a back-lit remote to aid night time channel navigation.
