60 cm Stainless Aeroperfect Upright Cooker with Gas Cooktop

Aeroperfect™ Technology - Bake perfect cupcakes, roast a delicious Sunday dinner or use the grill to make a hearty but healthy breakfast. Aeroperfect™ technology provides uniform hot air distribution throughout the oven and minimises temperature fluctuation, ensuring even and precise cooking every time.

SteamAdd

SteamAdd Program - Home-made pastries should be better but getting that perfectly flaky crust is a challenge. Beko ovens with the SteamAdd™ cooking feature help you cook delicious pastries and bread that's crispy on the outside and fluffy on the inside. Pour out the water at the bottom of the cavity easily before preheating to see that tender and shiny crust on breads and pastries!

AirFry Technology - Beko AirFry technology integrates an airfryer in the size of your oven! This oven evenly distributes heat, using powerful heaters, and a high-speed fan system. The special AirFry accessory circulates hot air, making food crispy outside and soft inside, without the need for much oil. With this function and accessory, who needs an extra appliance?
