PHILIPS

Highlights

NanoProtect HEPA Filter

The extra thick NanoProtect HEPA and AC filter is designed for superior purification efficiency and lifetime against airborne particles.

Allergen mode

The specially designed Allergen Mode is very effective in removing common airborne allergens. When the purifier detects even the slightest change in air quality, it will boost its cleaning performance to remove allergens in the air.

Long lifetime performance

Long lifetime performance

VitaShield IPS

VitaShield IPS with aerodynamics design and extra thick NanoProtect HEPA Filter boost clean air delivery to 393 m³/hr, that can be applied to up to 95m² room. It can effectively remove UFP particles as small as 0.02µm* (more than 100 times smaller than PM2.5), removes 99.97%* common airborne allergens, 99.9% bacteria and some viruses such as H1N1*. It also provides you the assured protection from harmful gases like formaldehyde, toluene and TVOC.

Real time numerical PM2.5

The numerical PM2.5 indicator together with 4-step color ring feedback provides real time indoor air quality.

Healthy air protect

With advanced AeraSense technology, the filter lifetime is accurately calculated based on indoor pollution level, air flow and operation time. Healthy air protect alert lets you know promptly when it is time to replace the filter. If the filter is not replaced promptly, the appliance stops functioning to avoid running with no effect since filter not effective. So you are assured of healthy air always.
