Features	Benefits
Perimeter Air Extraction	Air extraction is directed to the perimeter of the stainless steel panels, increasing the efficiency of the air flow effectiveness of the air extraction.
4 Stainless Steel panels	Provides a semi-professional aesthetic adding to the premium style of the canopy.
Intensive function	This provides additional air movement for a period of 10 minute. After 10 minutes it will revert back to the original speed setting.
Timer	Rangehood will continue to function on the chosen speed for 15 minutes. After which time the rangehood will automatically switch off.
Clean Air Function	Function can be activated once the rangehood has been turned off. Rangehood will 'Activate' for 10 minutes every hour to help reduce lingering cooking odours (when cooking is complete).
Filter Saturation Alarm	Display will indicate when aluminium filter and carbon filter needs to be replaced.
1200m³/hr air movement	Helps to protect kitchen surfaces such as kitchen walls and cabinets from grime and build up.
Push Button Controls	Push button controls with 4 speeds (intensive) to suit your cooking needs.
