- ▶ Front left zone diameter 12/21cm
- ▶ Back left zone diameter 14.5cm
- ▶ Front right zone diameter 14.5/20/35cm
- ▶ Centre zone diameter 18/23cm
- ▶ Front left zone 0.75/2.2 kWh
- ▶ Back left zone 1.2 kWh
- ▶ Front right zone 0.9/1.75/2.1 kWh
- ▶ Centre zone rating 1.5/2.4 kWh

Measurements in mm

ELECTRIC COOKTOP INSTALLATION NOTE.

All electric cooktops must have an intermediate floor installed beneath covering the full width of cooktop. If an oven/compact appliance is installed directly beneath an electric cooktop no intermediate floor is required providing the oven/compact appliance restricts access to the entire underside of cooktop.
