(Charges will apply at \$2.95 per minute for Gold Technical Support Only)

Safety Instructions

- Always read the safety instructions carefully
- Keep this Instruction Manual for future reference
- Keep this device away from humidity
- Lay this device on a reliable flat surface before setting it up
- Do not stand it on soft furnishings
- If any of the following situation arises, get the Set Top Box checked by a service technician:
 - ✍ It has been exposed to moisture
 - ✍ It has been dropped and damaged
 - ✍ It has obvious sign of breakage
 - ✍ It has not been working well or you cannot get it to work according to the Instruction Manual

Warning

- To prevent the risk of electric shock, do not open the cover or the back of the receiver.
- Do not block the ventilation holes of the device. Leave appropriate gap above and around it to allow for adequate ventilation.
- Do not place the device in an unventilated cabinet or on top of a unit which emits heat.

Copyright Statement

OVERVIEW

This High Definition Digital Set Top Box with Integrated Blu-Ray Player will provide you with high definition, cinema-like pictures and multi-channel audio.

PLAYABLE DISK TYPES

Please see below the disk formats that are accepted and can be played by your Bush DFTA60BR player:

Format	Logo	Format	Logo
Blu-Ray™ Disks		DVD-RW	
DVD Video Disks (DVD-ROM)		DVD-R	
Audio CDs (CDDA)		DTS-CD	
VCD		MP3/WMA/JPEG Data CD	
HDMI		DVB-T	

NOTES:

For recordable DVD & CD disks formats, only DVD-RW/-R & CD-R/-RW disks recorded with UDF or ISO9660 format can be played via this unit. The disks must be finalised via VR-mode.

If your disk format type is not specified above then it may not work with this unit or perform specific operations.

REGION CODE

If the region number of a Blu-Ray or DVD disk does not correspond to the region number of this unit the disk will not be available for playback. The region code is printed on the rear panel of this unit.

Front Panel and Rear Panel Illustration

Front panel

- ① **Disc Tray:** Once you press the Eject Button the Disc Tray will open and you can load your DVD or Blu-Ray disk.
- ② **LED Display:** The LED Display will display the channel you are watching.
- ③ **EJECT BUTTON:** Used to open or close the disc tray.
- ④ **PLAY/PAUSE BUTTON:** Used to playback or pause the program being viewed.
- ⑤ **STANDBY BUTTON:** Press the STANDBY Button to turn the unit on or off.
- ⑥ **USB Input:** USB Input Supports JPEG Files, Music Files, Video Files and Software Upgrade.

Rear panel

- ① **AUDIO L/R:** This socket outputs Analog Audio L/R signal.
- ② **COAXIAL:** This socket connects to a Coaxial cable on your surround sound system.
- ③ **VIDEO:** This socket outputs composite video signal.
- ④ **HDMI:** High definition audio and video output used to connect to a HDMI device.
- ⑤ **USB:** Supports JPEG Files, Music Files, Video Files and Software Upgrade.
- ⑥ **LAN:** The Lan Connection allows you to connect to the internet and access any links on your Blu-Ray disk. The disk must support BD live 2.0. Alternatively it can be used for software upgrades.
- ⑦ **R F LOOP THROUGH:** This socket will bypass the RF signal to either your TV or another video system.
- ⑧ **RF IN:** This socket connects to your external Aerial.

Front Panel and Rear Panel Illustration

TV Set Connections

CONNECTING THE BLU-RAY PLAYER TO YOUR TV SET VIA THE AV CONNECTION

Connect the unit's L and R audio output via the composite cable provided to the corresponding audio input on your TV.

Then connect the unit's video output via the composite cable provided to the corresponding video input on your TV.

To play your USB, please insert your USB, the screen will display USB CONNECTED. Then select the USB icon and press the ENTER Button to begin your USB function.

USB function will support files such as JPEG, MP3, WMA, MPEG2, MPEG4, AVI, VOB, WAV, MKV, MITS and TS. Press the SOURCE Button if you wish to return to the main menu or press the STOP Button to return to the file list.

Main Menu Introduction

Playback

SMART Function

When playing disc, press the SMART Button to open Smart Menu. This will provide you with quick access to; MUTE, AUDIO, VIEWMODE, DISPLAY, VOLUME, ZOOM, ANGLE, SEARCH, DISCMENU and TITLE. Use the LEFT and RIGHT Buttons to choose one icon and press the ENTER Button to start.

Time Function

Press the INFO Button to select time information.

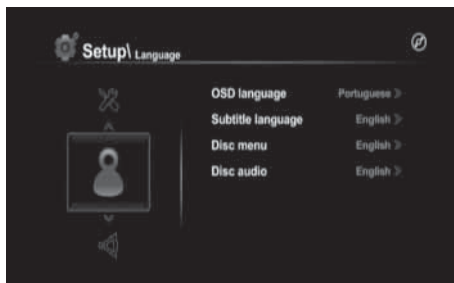

Display Function

Press the INFO Button to view the current program or movie information.

Player Configuration via System Menu

Press the SOURCE button on the remote control to select the Setup or you can press MENU button then press RETURN button to select the Setup option. Then press the ENTER button to select. You will be able to amend the unit Settings for your personal requirements, including on screen language, Subtitle language, Disc menu & Disc audio.

1. In the Setup Menu use the Up/Down Buttons to select the settings category you wish to change.
2. Use the Right Button to skip to the selected setting.
3. Press ENTER to cycle through each possible option or display a list of the options.
When a list of options appears, press the Up/Down direction buttons to move among the displayed options.
4. Press ENTER again to choose the option and change the setting.
5. Use the Left direction button to return back the category, and ready to change settings in a different category.
6. Pressing the Setup button while the Setup Menu is displayed will turn off the Setup Menu.

Language setup

Language setup will change the system's language settings.

OSD Language

Use this item to select the language of the setup menu and screen display.

Subtitle Language

This option provides the preset subtitle language.

Disc Menu

This option provides the film's menu language options.

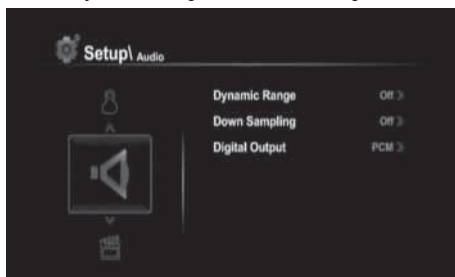

Disc Audio

Select the built-in disc dubbing language options.

Player Configuration via System Menu

Audio setup

The Audio Setup Menu allows you to change the audio Settings.

Dynamic Range

Select on or off to control Dynamic Range.

Down sampling

Select down sampling function on or off.

ON: System will down sample rate for high sampling rate audio (more than 96K).

OFF: Disable this function.

Digital output(Optional)

Adjust the audio output of the Coaxial ports/HDMI output to work in harmony with your audio equipment (e.g. receiver, amplifier) connected to the player.

Off: Digital audio output is disabled.

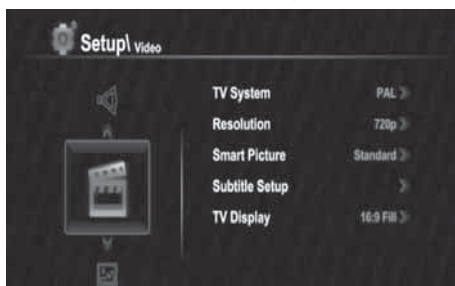

PCM: Transfer stereo 2 channels signals

RAW: Transfer the DVD original audio track

Note: This item is only for the player with coaxial output.

Video setup

The video Setup Menu allows you to change the video/picture Settings.

TV System

This feature allows you to change the reception system.

Note: The DVD player setting should be matched to your TV set.

For more information of output format, refer to the instructions or your TV set.

Player Configuration via System Menu

Resolution

After you set the video output to HD output, you can choose the resolution of the HDMI output.

Smart Picture

You can change the Smart Picture to Standard, Bright or Soft to optimise the effect of the screen.

You can choose the Slide Interval Time as 5 Seconds / 10 Seconds / 30 Seconds / 1 Minute / 5 Minutes.

Background music

You can select On or Off to control the Slide Background music.

Player Configuration via System Menu

Parental Control

The Parental Control Menu allows you to lock certain channels to protect children from inappropriate programs. To set a password, you will have to enter the default password 666666.

DVB-T Rating

In the System Menu you can set the Parental Guidance settings to restrict access to unsuitable channels. To restrict/lock the selected channels you will need to enter either the default password 666666 or your own password and then follow the prompts.

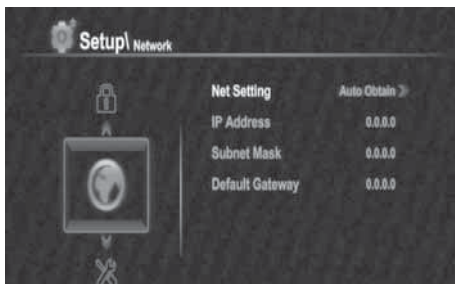

Rating Level

This feature lets you lock certain Rated programs.

Changing the Password

In the System Menu you are able to set your own password. Enter your old password or the default password 666666 to unlock this setting. Then you will then be asked to enter your new password. To confirm re-enter your new password. Once it is confirmed.

Network Setup

In Network Setup, select Auto Obtain and press ENTER to obtain the IP address. If successful you see successful onscreen or Connection failed if it fails. Select Fix IP to manually input your IP Address.

Player Configuration via System Menu

DVB-T setup

Country Select

Confirm your country of residence. Use the navigation buttons to select your desired country.

Time offset

The Time Offset can be set to auto or manual. If set to auto the Set Top Box will automatically change day light savings time etc.

Country Region

The Country Region option also allows you to set the state time in which you live. Select the Country Region option when Time Offset is set to Auto.

Time Zone

You can also change the Time Zone, this is best used when the Time Offset is set to Manual.

Logical channel Number

In the Program Menu you can set the LCN to on or off.

General setup

Screen Saver

You can turn on or off the unit Screen Saving in this option.

Use Default Settings

This feature allows you to conduct a unit factory reset. This will clear/delete all unit settings & channel lists. If you have any issues with this unit, it is recommended to do a factory reset to fix.

BD Info Storage

This option allows you to see the BD info Storage. Select this option to clear the Blu-ray storage.

Version

To display the current Software version.

Software Update

From time to time new software may be available for your digital box, which can be updated via the USB port or by receiving the software via your network.

DVB-T Function

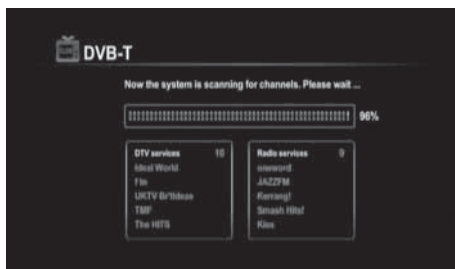

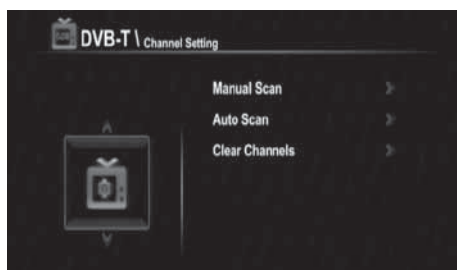

The DVB-T Menu can give you access to the basic setting function of your digital box. To view the menu, press the **MENU** button on your remote control, or press the **SMART** button to select the *Channel Setting* option to enter the Menu mode.

Auto Scan

The Auto Scan option allows you to conduct a full automatic search for all available channels. All channels that are found will be stored in the channels list. Please note that when you conduct a channel search it will clear all preset channels.

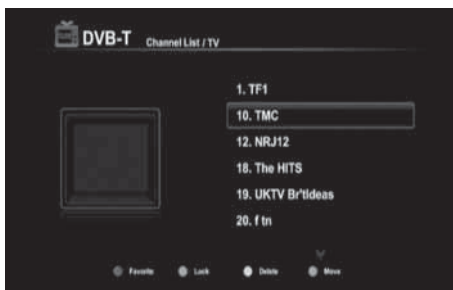

Manual Scan

To conduct a Manual Scan, input the channel number and then press the **ENTER** Button to scan for that channel. If there is a repeated program in the list, it will show No new channels found.

DVB-T Function

1) Channel list: You can set favorite channels, lock, delete and move channels in your channel list.

RED will delete programs, GREEN will lock chosen programmes.
YELLOW to delete chosen programmes. BLUE to move chosen programmes.

2) EPG

The Electronic Programme Guide, is an on-screen TV guide. It shows all scheduled programmes in advance for every tuned in Channel.

You can use the **▲▼** buttons to select a different channel. Press **ENTER** to watch the selected channel in the preview window

3) AUDIO: The Audio option will allow you to adjust the audio level.

4) SUBTITLE: The Subtitle option will allow you to set the subtitle function.

5) TELETEXT: The Teletext function will display the Teletext Menu.

6) TV/RADIO/LOCK/FAVORITE: Press the **ENTER** Button and use Navigation Buttons to select TV/RADIO/LOCK/FAVORITE programmes.

BD-Live Operation

Some (but certainly not all) BD disks contain additional features that are made available to players that are connected to the internet, and have additional memory added. These additional features may include things like

- the ability to download new movie trailers,
- additional 'commentary' by actors and directors,
- multiplayer game play and chat

In order to access BD-Live functions, the player must be properly configured for BD-Live internet access, and it must be equipped with additional memory.

Adding external BD-live Memory to player

Obtain USB memory which has been formatted as FAT32.
Insert the USB memory stick into the USB slot on the player.

Setting BD-Live Internet Access Mode

In the BD Player's main setup menu, go to the **Other** menu choice; Then, choose **BD-Live Internet Access**. Be sure that **Always Allow Access** is checked.

Once the USB memory stick has been inserted, if there is not at least 100Mbyte of free space on the device, you should choose **Clear BD Storage** from the **Other** setup menu.

In the BD Player's main setup menu, go to the **Network** menu. Then, choose **IP mode**. Set up the Network IP addresses per your router's or ISPs' recommendations.

NOTE: The **Connectivity Test** must pass, or you are not connected to the internet, and cannot access BD-Live Content on the web.

BD-Live Internet Access Example

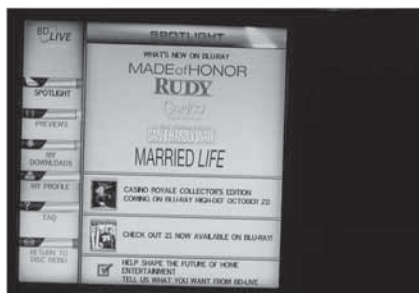

Obtain a BD-Live disk like <The 6th Day>

Select BD-Live option from Special Features Menu (or on some disks, you can see BD-Live option in main menu)

BD-Live Operation

The player will connect to internet and show the download menu as below picture.
 Note: This can take several minutes.

You can select the content to download from the Previews sub menu.
 Note: This can take several minutes.

The downloaded content is stored under My Downloads. You can choose to either playback or delete the downloaded content.

BD-Live Notes

This player only support the connection of USB memory in order to store BD 2.0 downloaded content. Any externally connected device will be set as BD-Live storage and internal storage will be ignored. Some BD-Live content will expire and not playable, users need to manually delete the contents in BD storage in order to free space.

Troubleshooting

If you experience problems with your Set Top Box/Blu-Ray Player, we recommend you follow the below suggestions first which are outlined to assist you with any basic issues. If you continue to have problems we recommend you contact the Bush Service and Warranty Toll Free Number - 1800509394 .

NO PICTURE OR SOUND

- Ensure the power button is on.
- Ensure the power outlet is operational.
- Ensure the power cord is not damaged.
- Ensure the power plug is connected firmly to the outlet.

PICTURE BUT NO SOUND

- Ensure the audio jacks are securely connected.
- Ensure the audio connector is not damaged.
- Ensure you have set the player's Audio settings correctly.
- Ensure you have entered the correct AV input for your TV.
- Ensure the audio is not set to mute.

SOUND BUT NO PICTURE

- Ensure the video jacks are securely connected.
- Ensure you have entered the correct AV input for your TV.
- Ensure the video connector is not damaged.
- Ensure you have set the player's VIDEO settings correctly.

POOR PICTURE OR SOUND

- Ensure you have set the player's Audio settings correctly.
- Ensure the disc is not scratched or stained.
- Ensure the AV connector or the output terminal is not damaged.

REMOTE NOT WORKING

- Make sure the mains power and the unit's power is on.
- Ensure the remote batteries are working.
- Point the remote control directly at the player's IR sensor.
- Remove any obstacles between the remote and the IR sensor.

UNIT NOT WORKING

- Turn off the power, and then turn it on again.

NO DISC DISPLAYED

- Conduct a Factory Reset
- Ensure you have put the disc on the tray.
- Ensure the disc is not upside down.
- Ensure the disc is not distorted, stained or scratched.

Warranty

Please keep your receipt as proof of purchase. This product is warranted for any defect in materials or workmanship for one year after the original date of purchase. This product is for normal domestic and office use only.

This warranty does not cover damage from misuse or neglect, accidental damage, vermin infestation, excessive voltages such as lightning or power surges or any alteration that affects the performance or reliability of the product.

Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

In the unlikely event that your product fails to work normally, please contact the Bush Warranty on **1800 509 394 (Australia)** or **0800 450 259 (New Zealand)** and have your receipt of purchase on hand.

This warranty is subject to the following provisions:

- It is only valid within the boundaries of the country of purchase.
- The product must be correctly assembled and operated in accordance with the instructions contained in this manual.
- The product must be used solely for domestic purposes.
- The warranty does not cover accidental damage, misuse, cabinet parts or consumable items.
- The warranty will be rendered invalid if the product is resold or has been damaged by inexperienced repair.
- The manufacturer disclaims any liability for incidental or consequential damages.

This warranty is in addition to, and does not diminish, your statutory or legal rights.
