Catalytic back wall

The catalytic back wall makes cleaning quick and easy. Cleverly absorbing cooking grease and reducing food odours. No more harsh cleaning chemicals!

Nano Coating Technology

The first nano technology used in domestic ovens! This innovative technology was created by Beko to save you time when cleaning your oven and money on heavy duty cleansers. The oleophobic nano coating technology used on the inside glass door helps resist grease and dirt so your oven will always look great!

Telescopic Pull-Out Shelf System

The extending arms of the telescopic pull-out shelf system enables easy and safe access to the oven contents..

Easy to remove side racks

To make cleaning of the oven interior part easier, the side racks can be simply detached without the need for a special tool.
