

INDUCTION COOKTOPS

SI364BM
60CM INDUCTION COOKTOP

CANALI DESIGN

Fitting within a large and comprehensive portfolio of Smeg appliances with complementing aesthetics, the architectural detailing of Guido Canali makes possible the matching of appliances, including the oven and cooktop

PAN DETECTION SYSTEM

Only the base area of the pan is activated by the electromagnetic field within the cooking zone for economical power use.

RESIDUAL HEAT INDICATORS

If the induction cooktop surface is still hot a [H] is indicated on the control panel. Once the temperature falls to a safe level the indicator will go out and the cooktop can be easily cleaned.

EAN 8017709275884
