home entertainment.**

[PRODUCT DESCRIPTION]

AUDIO PRO A26 - WiFi wireless multiroom home entertainment stereo bookshelf speakers - HiFi
Colours: White/Black

IN CHARGE OF YOUR HOME ENTERTAINMENT

[FULL DESCRIPTION]

ADDON A26

This unique active stereo speaker set will offer you an astonishing music and TV sound experience surpassing the one of soundbars due to the bigger soundstage that a stereo pair of speakers provides.

With these speakers you can take total control of your home entertainment. Connect your TV with ARC for easy control from the TV remote. Stream music from the major streaming providers via WiFi or Bluetooth. Connect your CD player through the optical input and your analog source to a 3,5 mm input. Everything controlled by Audio Pro's app or the enclosed remote control. Use the 5 presets for easy access to your stored radio stations or playlists. With the multiroom feature the A26 can be connected to your other Audio Pro multiroom speakers in your network. No other brand can offer this versatility like these speakers.

In the app you can finetune your speakers bass/treble and add a virtual surround effect (Virtual Surround only available for the ARC input). This will give you a wider soundstage when watching movies. The function can be finetuned in 3 different steps to best suit your own preferences and room.

The MDF cabinet painted in soft satin white or black blends in naturally with your home. The fabric fronts are fixed by magnets and can be easily removed for a more modern look, if this is your preferred design.

The A26 is prepared for wall mounting (brackets sold separately) but can also easily fit on a shelf. The speaker has a full range/satellite switch. In satellite mode the bass output will be reduced and the speaker will be able to play louder together with an active subwoofer.

TOP 3 FEATURES:

TV-, stereo-, streaming-, and multiroom- sound in one.

Excellent TV-compatibility and user friendliness with ARC.

5 presets gives you easy access to your favourite playlist, radio channel etc.
