

MULTI SUPPORT PHA 700

- Max. weight: 10 kg / 22 lbs
- Available colours: Black

Mounting your TV flat to the wall looks fantastic, but where to put your other audio/video hardware (such as a DVD recorder for example)? The Physix Multi Support is the perfect solution. It also mounts to the wall and can carry up to 10 kg.

MULTI SUPPORT PHA 700

The Multi Support can be combined with the Physix Cable Strip for an elegant cable-free solution. Just mount the Multi Support to the wall and cut the Cable Strip to the right length to cover the distance between the Multi Support and the TV, and between the Multi Support and the floor.

Features

- Easy mounting (mounting hardware included)
- Placement of VCR, DVD player or satellite receiver
- Wall support for all kinds of audio/video hardware
- Universal
- Anti-slip pads included
- Modular system
