

the Quick Touch™

Product Description:

Smart Settings Take the Guesswork out of Cooking, Reheating & Defrosting

The easy to use microwave that knows the right power level and time to suit the food that you're cooking.

With a simple press of a Smart button the microwave offers a selection of the most commonly used food types in cook, reheat and defrost modes. Time and power levels are automatically determined for optimum results.

The shortcuts panel on the inside door makes the microwave very easy to use. Sensor IQ Cook and Reheat, automatically measures humidity released from food and calculates the cook time. The one-touch auto buttons also provide access to your favourite setting and commonly used tasks such as melting chocolate, softening butter and reheating baked beans.

30 second instant start and A Bit More™ add further simplicity to the ease of use. The Intuitive microwave that won't spill the beans!
