

RX611DUX1

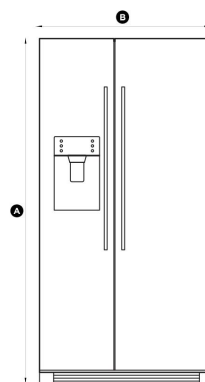

Side by Side Fridge - 900mm Ice & Water 610L

Designed to complement the Fisher & Paykel family of kitchen appliances, this generous side by side fridge freezer is perfect for the busy family.

Stainless Steel

Dimensions

Depth	700mm
Height	^A 1795mm
Width	^B 910mm

Features & Benefits

Sized to Suit

These large fridge freezers are sized to suit families that use both a fridge and freezer every day, with an overall capacity of 628 litres in the regular models and 611 litres in the ice & water models. The built-in icemaker makes up to 1kg of ice a day and 6 adjustable shelves provide maximum food storage.

Complementary Design

These fridge freezers are designed to fit any kitchen style while complementing the Fisher & Paykel family of kitchen appliances.

Easy Cleaning

Removable storage bins and shelves are easy to keep spotless.

Efficient

The Holiday Mode setting intelligently lifts the fridge compartment to 17°C; meaning less energy is needed when you are not using your fridge, while the freezer operates as normal. The Quick Cool and Quick Freeze functions chill or freeze food quickly, keeping it fresh for as long as possible – perfect when putting large quantities of food into the fridge or freezer at one time. R600a refrigerant is an environmentally friendly coolant that has significantly reduced Global Warming Potential when compared to traditional refrigerants.

Easy Living

These fridge freezers are designed to suit your lifestyle whether you choose the standard model or one with ice and water. In all models, adjustable and easy access shelving and storage options are available with slide-out bins and trays. In the Ice and Water models the dispenser offers three convenient options – cool water, crushed ice and cubed ice.
