

## 1800 W

AirflowMax technology ExtraClean nozzle Long reach tool

FC8385/71

# Full performance. High suction power.

With AirflowMax technology and ExtraClean nozzle

The new Philips Performer Compact vacuum cleaner delivers top cleaning performance with minimum effort. AirflowMax technology keeps the suction power stronger for longer. The ExtraClean nozzle removes dust efficiently on all floors.

#### Remarkable cleaning results

- 1800 W motor for strong suction power
- Revolutionary AirflowMax technology for strong suction power
- New ExtraClean nozzle for thorough cleaning on all floors

#### Clean air filter system

- Super Clean Air filter for dust-free, healthy air
- S-bag Classic Long Performance lasts up to 50% longer\*

### **Effortless cleaning**

- · Long reach tool for difficult to access areas
- · ActiveLock couplings to easily adjust to each cleaning task
- · Compact and light for effortless cleaning and easy storage
- · On-board accessories for ultimate convenience

## Highlights

#### **1800 W motor**

1800 W motor generates strong suction power for excellent cleaning results.

#### AirflowMax technology

The unique AirflowMax technology keeps the suction power stronger for longer\* to use the bag to the very end. The technology is build around the optimization of three key elements:

1) Unique ribs profile inside the dust chamber to maximize airflow around the dustbag and enable the use of the entire bag surface. 2) Specially designed dust chamber capacity that allows the dustbag to fully unfold uniformly. 3) High quality, non-clogging fibre structures in the dustbag absorb dust without blocking the pores, thus avoiding a reduction in suction power.

#### ExtraClean nozzle

The new ExtraClean nozzle delivers a thorough cleanning on all types of floors. The nozzle is designed with a large front opening to pick up big crumbs, while at the same time it seals closely to the floor to ensure a good pick-up of the fine dust.

#### Long reach tool

The Long reach tool is a clever accessory which helps you clean difficult areas like the top of the furniture or high shelves. The angle of the brush is adjustable, so you can have the exact instrument for your needs.

### **On-board accessories**

The vacuum cleaner is designed with integrated accessories, so that you do not

need to carry extra pieces around while you clean. The crevice tool is stored in the canister, and a soft dusting brush is coveninently integrated in the handle of the appliance, always ready to use.

#### **ActiveLock couplings**

The ActiveLock couplings allow you to easily connect and disconnect the different nozzles and accessories from the telescopic tube while cleaning.

## **RED DOT DESIGN AWARD 2016**

The Red Dot Design Award is an international product design and communication design prize.

Winning an award in this competition is proof that the creative minds have a vision and are able to commit, to carry out, to research and to experiment - and that they are a name to watch out for in the future. There are prize categories for product design, design agencies, and design concepts.

## Specifications

#### **Performance**

- Input power (IEC): 1600 W • Input power (max): 1800 W
- Sound power level: 83 dB
- Suction power (max): 350 WVacuum (max): 23,5 kPa

#### **Usability**

- · Action radius: 8 m
- Carrying handle: Front
- Cord length: 5 m
- Tube type: Metal 2-piece telescopic tube
- · Wheel type: Rubber
- Tube coupling: ActiveLock

## Design

Color: Sporty red

#### **Filtration**

• Dust bag type: s-bag Classic Long Performance

- Dust capacity: 3 L
- Exhaust filter: Super Clean Air filter
- Motor filter: 1 layer foam filter

#### **Nozzles and accessories**

- Accessories included: Crevice tool, Integrated brush
- Extra accessories: Long reach tool
- Standard nozzle: ExtraClean nozzle

#### **Sustainability**

- Packaging: > 90% recycled materials
- · User manual: 100% recycled paper

#### Weight and dimensions

- Dimensions of product (LxWxH):  $400 \times 251 \times 282$ mm mm
- Weight of product: 4.5 kg
