Connecting by SongPal

Required items: Android smartphone or iPhone/iPod touch, the wireless router

Use an Android smartphone or iPhone in which SongPal is installed to configure Wi-Fi settings of the unit. Use the SongPal app on your smartphone or iPhone. Follow the application's onscreen instructions to connect the unit to the Wi-Fi network.

Search for SongPal on Google Play™ (Play Store) or App Store.

To listen to music with the unit

1. Tap your smartphone/iPhone to play music in your smartphone/iPhone by operating SongPal.
2. After selecting music, start playback and adjust the volume.
3. To listen to music with your smartphone, operate your smartphone and SongPal.

Other methods

You can listen to music from your smartphone or computer using SongPal. For more details about the following connections, playback methods, and other information, refer to the Help Guide.

Connecting to your Wi-Fi network

To listen to music with a Wi-Fi network, SongPal is recommended to be used for your smartphone or iPhone.

Installing SongPal on your smartphone/iPhone

1. If SongPal is already installed, tap this installing. See “Listening to music with the unit.”
2. Tap SongPal on your smartphone/iPhone to start the app, and then follow the instructions on your device.
3. When the screen on the right is displayed, tap [Go to Step 3] (SRSH-G1).

Connecting by BLUETOOTH

You can listen to music with your smartphone or computer using SongPal. For more details about the following connections, playback methods, and other information, refer to the Help Guide.

A Wi-Fi network enables you to easily enjoy music stored in wireless devices in your home.

STEP 1: Charging the battery

To charge the battery, connect the unit to an AC outlet by using the supplied USB AC adaptor and micro USB cable. Depending on the country or area, the USB AC adaptor and cable may differ from the illustration above. For details, refer to Help Guide.

The Help Guide explains:

• Wi-Fi network connection details
• How to use the SongPal app
• Network connection and playback methods for each computer OS
• BLUETOOTH connection and playback methods for various devices
• Wireless network connection details
• Software update
• How to connect the second and subsequent devices via Wi-Fi, etc.

STEP 2: Connecting to your Wi-Fi network

A Wi-Fi network enables you to easily enjoy music stored in wireless devices in your home.

Using a Wi-Fi network, you can play music from your smartphone or PC, or listen to music from the Internet. You can also listen to music stored on your smartphone or mobile phone, or music files on a device such as a smartphone or tablet device. Additionally, you can use your smartphone to search for music on the Internet or music files on your computer or smartphone while enjoying music from the Internet.

Choose how to connect the unit to your Wi-Fi network from the following:

• Connecting by SongPal
• Connecting by Wireless Router with the Wi-Fi Protected Setup™ (WPS) button

Connecting by SongPal

1. Go to STEP 2 for the wireless connection

Connecting by Wi-Fi Protected Setup™ (WPS)

1. Go to STEP 2 for the wireless connection

Connecting by PC

1. Go to STEP 2 for the wireless connection

STEP 3: Listening to music via Wi-Fi

To listen to music with a Wi-Fi network, SongPal is recommended to be used for your smartphone or iPhone.

Playing music using SongPal

To listen to music with your smartphone, operate your smartphone and SongPal.

Listening to music with the unit

Required items: Android smartphone or iPhone/iPod touch

1. Tap your smartphone/iPhone to play music in your smartphone/iPhone by operating SongPal.
2. After selecting music, start playback and adjust the volume.
3. To listen to music with your smartphone, operate your smartphone and SongPal.

To play back music by Google Cast

1. Go to STEP 2 for the wireless connection

To play back music using a BLUETOOTH receiver

To play back music using a BLUETOOTH receiver:

1. Select a BLUETOOTH receiver from your smartphone or computer.
2. Tap [Use] on your smartphone or computer.

To play back music using an AV receiver:

1. Select an AV receiver from your smartphone or computer.
2. Tap [Use] on your smartphone or computer.

To play back music using a music app, or the music stored on your PC by using the free software, MediaGo.

To play back music using a music app, or the music stored on your PC by using the free software, MediaGo.
