(for optimal picture quality HDMI cable is recommended, but not supplied)

^ Internet connection is required, Internet usage, data charge and conditions may apply

± Channel Reception is subject to local broadcast coverage and may require an upgrade of your existing aerial.

# So easy to connect

## As simple as 1.2.3

Plug your DVR in to Power and TV, connect the aerial, connect to network via Wi-Fi or LAN, run installation wizard and then sit back and enjoy.

To access your own Media files, simply plug in your External USB Hard Drive\*, to the USB port on your unit, Files can be accessed via the Media button on the remote. There is also handy Rewind, Fast Forward, Play, Pause and Stop buttons as well. This model will support up to 1TB Hard Drive.

To record your favorite TV Shows, set your recording up via the EPG or Manual Timer. To Playback record programs simple access via the File List button on remote, or through File Explorer. Features auto & manual book marking, and file editing. (Records in .TS format).

Using the AV Input you can record from external devices; back up old home movies from VCR, DVD Cameras, record game play from game consoles (PS, Xbox etc), even record from PayTV. Add an external USB Hard Drive and create even more storage options.
